

Being a column in which the publisher just "blows off the steam."

By Willard Jones

PLANS AROUND-THE-WORLD FLIGHT—George Williams, who hopes to take off from New York on a flight around the world in his 3,800-pound Mooney Mark 20-A, stops in Dallas on a flight from Kerrville, where the plane was made. Young Williams, a former Navy pilot who now lives in Mexico City, expects to make the flight in eight days. A native of Chicago, he is the father of five children. The plane is the same one in which the late Bill Wyatt made an unsuccessful attempt to fly to Rome earlier this year.

Riding Club Plans Arena for Members

Hamlin will be taking on a rodeo air again within a few days with the start of erection of an arena in North Hamlin by the recently organized Hamlin Riding Club, according to Bill Adair, president of the club.

Methodist Youths to Gather Old Clothes

Young people of the First Methodist Church are participating in a used clothing drive sponsored by the Church World Service, a relief agency with which the Methodist Church is affiliated, it is announced by Rev. Edmund W. Robb, pastor.

Warm clothing is especially needed, MYF leaders explain. No hats or high heeled shoes are desired. Members of the MYF will call for the clothes and pack them in boxes for shipment.

Pied Piper Gridders and Coaches Treated to Barbecue by Booster Club

About 100 were present at the annual barbecue for the Hamlin High School Pied Piper football squad, their coaches and members of the Pied Piper Booster Club together with some enthusiastic football fans, was enjoyed at the Pied Piper football field Friday night.

Those who failed to see the Pipers in action against the Asper-

Nazarene Church Sets Homecoming Here September 28

Officials of the Hamlin Church of the Nazarene have announced plans for a fiftieth anniversary homecoming to be held September 28 at the church, corner of Southwest First Street and Avenue D.

This special Sunday service will be preceded by a week of special services with Rev. Mrs. Emma Erickson, Mrs. Erickson is one of the charter members of the Church of the Nazarene, which celebrates its golden anniversary this year. Her husband, the late Rev. Allie Erick, once served as district superintendent of the Hamlin (now Abilene) District.

A former pastor will preach at the homecoming services on Sunday. All former members of the local church are invited to be present for this significant occasion. Detailed plans will be announced later.

mont squad missed a treat, declare officials of the booster club, which sponsored the get-together.

"Even though it is a little early in the season to see just what kind of a squad we will have this year," said Booster Club President Wayne Stallcup, "one thing is for sure—the Pipers will have a scrapping team, and they have every prospect of a district championship."

"We, the officers of the Pied Piper Booster Club, urge all football fans in Hamlin and surrounding communities to get behind our fine coaching staff and boys and show them that we are with them until the end."

One way that fans of the area might show their appreciation for the efforts of the coaches and grid players, said Stallcup, is to join the Booster Club.

License tag cards for automobiles are on sale at the H. & M. Tire and Appliance, White Auto Store and Western Auto Store, it is announced. These tags are about nine inches long by four inches wide; have white background with green letters, "Hamlin Pied Piper." Money raised by the sale of these tags will be used to back the athletic teams of Hamlin Schools. If you have not purchased your tag, get yours at once.

PARKERS HAVE GUESTS. Mr. and Mrs. John O. Moore and children of Oklahoma City and Dr. and Mrs. Tom West and children of Abilene visited Mr. and Mrs. J. I. Parker last week.

First Cotton Bale Set Afire While on Display on Street

About 10 hours after Hamlin community's first bale of 1958 cotton was placed on display last Thursday afternoon in front of the Farmers & Merchants National Bank, the bale was set afire by unknown parties. Discovered about 1:00 o'clock Friday morning by Nightwatchman Jack Pyron, the fire did an estimated \$50 damage to the cotton.

Believed to have been set by malicious prowlers, similar in pattern to more than 40 other fires reported in the last 90 days in the Hamlin area, the fire was smothered by members of the Hamlin Volunteer Fire Department after several hours of burning.

The bale, harvested by O. L. Cochran of the Dovie community, had been ginned the previous week by Farmers Cooperative Gin of Neinda. Manager G. W. Drum-

See COTTON FIRE—Page 3

Richard Jarrell of Amarillo Named Nazarene Pastor

New pastor of the Church of the Nazarene in Hamlin is Rev. Richard Jarrell of Amarillo, local church officials have announced. He succeeds Rev. Bill Hanna, who resigned several weeks ago to accept a pastorate in Fort Worth.

The Jarrells will arrive in Hamlin next week and will make their home in the church parsonage on Northwest Avenue D. Rev. Jarrell's first sermons to the church will be on September 14.

Rev. Jarrell was reared in Fort Worth. He attended Texas A. & M. College and Bethany Nazarene College. He has pastored churches in Cheyenne and Gary, Oklahoma, Camden, Arkansas, and Amarillo Grand Avenue Church.

Mrs. Jarrell is the former DeJuna French. Her father is presently the district superintendent of the South Arkansas District of the Church of the Nazarene. She is also a graduate of Bethany Nazarene College. Both the Jarrells are talented musical-

The Jarrells have two children, Sharon, who is four; and Richard, who is two years of age.

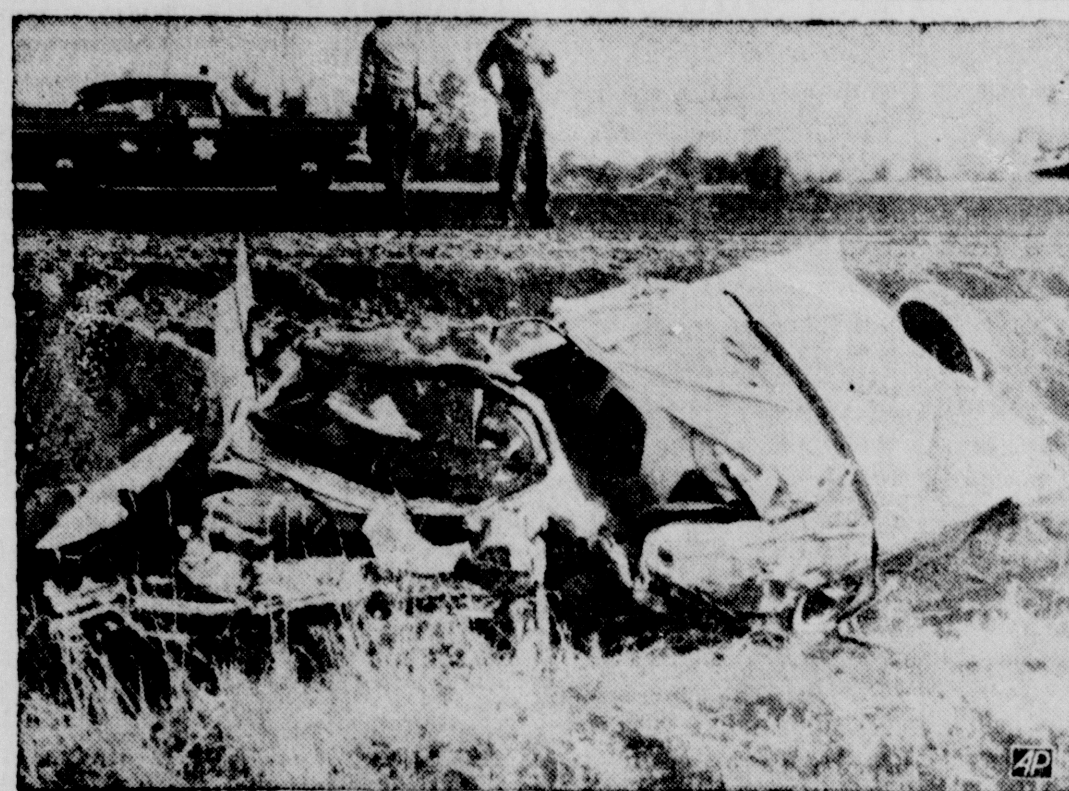

McCaulley Schools Opened Monday With Pupil Gains

McCaulley Public Schools began the 1958-59 school year Monday with an enrollment of 154, which was a slight increase over the enrollment of last year, according to T. E. Green, superintendent. He said he expected further enrollment within the next several days that should bring the total to around 160.

The school, housed in a new \$35,000 sprawling one-story building erected last year, will have 12 teachers this year. A home-making teacher was expected to be hired this week, Green said. Chemistry is being added as a new subject this year.

Superintendent Green teaches geometry and driver education in the high school. O. F. Hill is high school principal and teaches math and science. Mrs. O. C. Freeman teaches English and science; Mrs. Beth Jones Hawkins is the commercial teacher; and B. M. Robinson is vocational agriculture instructor.

In the grade school Gene Brock is junior high school principal; Mrs. T. E. Green teaches in junior high; Jim Lawlis teaches social studies. Mrs. Treasure Rector and Mrs. Rosa Lee Woods are primary teachers.

SIX PERSONS KILLED IN AUTO CRASH—A head-on crash of this auto on an express highway near Portland, Oregon, killed four Texans, a youth from Canada and another from Washington. Two persons were critically hurt. Howard D. Nelson, 51, and his daughter, Patricia, 22, of Dallas and Henry Browning, 73, and Della Browning, 71, of Keller were all killed in the auto shown.

Pied Pipers Go to Eastland Friday for Opening Grid Tilt

Most of Maize in Hamlin Section Already Moved

Probably 80 per cent of the maize crop in the Hamlin section has been harvested, grain buyers and others declared this week, as loads of the grain continued to dribble into buying stations.

Some late planted maize, he-gari and other head grain will continue to be harvested along for several weeks. Quality of the maize crop has been fair, and yield has been below normal because of the lack of needed rains during the heading and developing period of the grain. Some rains 60 days ago would have doubled or tripled the yield, farmers believe, since prospects for a bumper crop early in the season were among the brightest in the history of the section. Rains early in the season had caused unusual early growth, but another siege of drought through a section about 15 miles wide and 40 miles long.

NAMED PRESIDENT—Dr. Gordon R. Bennett, 58, has been named president of McMurry College in Abilene, succeeding the late Dr. Harold G. Cooke. Dr. Bennett, who had been acting president since the death of Dr. Cooke, is the first layman ever elected to the position. He is the sixth president in the 35-year history of the Methodist College. Bennett was superintendent of Hamlin Schools several years ago, later being in business here.

Maverick Crew To Present Tough Test for Locals

Hamlin High School's Pied Piper football crew gets off to an early start of the grid season Friday night when the boys journey to Eastland for the first game.

This is the first game with the Eastland gridders in many years, the tilt replacing the game usually played against Post.

Coach D. C. Andrews says his boys will be in fair shape for the curtain raiser, which gets underway at 8:00 o'clock tomorrow night. He and Coaches Jimmy Vaughn and Neil Laminack have been putting the Pipers through strenuous work-out for 10 days, beginning with a week's football camp completed last week-end at the Pied Piper stadium.

John Richey, 155-pound half-back, who is a three-year letterman and plays defense as well as offense, is the only returning offensive back on the squad. Ken Prewitt, defensive starter last year, will play both fullback and line-backer. Returning lettermen are at every position in the line. Roy Williams, who moves well for his 200 pounds of avoirdupois, is a stand-out on both offense and defense in the line.

The Eastland Mavericks, playing in District 7-AA, have a strong aggregation, as usual, although 11 key boys were lost through graduation last year. However, Coach Carrol Shelton says he has a number of tough boys coming up from

Farm Bills Will Be Discussed at Neinda Gathering Monday

Farmers and their families of the Neinda and Hamlin sections of Jones County are invited to attend a conference on farm problems to be held Monday evening at 8:00 o'clock at the Neinda community center. The gathering is being sponsored by the Jones County Farm Bureau.

The conference, to be presided over by Charlie Gregory of Neinda, will discuss resolutions and new cotton bills proposed by the Farm Bureau.

Hamlin-Stamford Project Due for Bids This Month

Highway construction jobs continue to bob up in the Hamlin section to perpetuate a pattern set two years ago by the Texas Highway Commission—all of which is welcome contribution to the economy of the region and good news to folks living along the projected routes of the new highways.

This week the commission has issued call for bids on two projects that total 9.444 miles of farm-to-market roads, and a major construction project—relocating and widening of Highway 92 from Hamlin to Stamford—is scheduled for bids within a few days, according to Nelson Shave, resident Texas Highway Department engineer at Hamlin.

Bids called for this week are on a four-mile stretch of farm-to-market road from Hobbs, Fisher County, south from U. S. Highway 180 to Claytonville; and a stretch of nearly five miles north from Hamlin to the Jones-Stonewall county line.

The latter project is part of a 20-mile stretch from Hamlin to Old Glory, part of which has already been constructed on the north end. Yet to be contracted is a new bridge over the Double Mountain Fork of the Brazos River and some nine miles more of the road on FM Highway 2481.

Due for bids also in September is the \$600,000 relocating and widening project on Highway 92 from Hamlin to Stamford. All right-of-way has been secured on the route, and West Texas Utilities Company is relocating its power line in Hamlin this week in the east part of town. This job has been pending for nearly two years, for which money was appropriated two years ago.

Big Porcupine Killed Monday Near Hamlin

O. L. (Slats) Redeus was displaying a big porcupine last Tuesday in Hamlin which he had killed on the Redus place west of Hamlin Monday night.

The porcupine, seldom seen in these parts, was despatched with a rifle after the Redus dog raised cain during the night about a disturbance about 50 yards from the house. The dog had treed the animal, and came away with a lot of quills in his nose and mouth after contacting the critter.

The porcupine weighed more than 14 pounds, Slats said.

FORT WORTH VISITORS.

Mr. and Mrs. C. N. Benham of Fort Worth have been visiting the Jess Youngs and Loy Frys on their vacation. They were on their way home from a vacation to Detroit, Michigan, and Rochester, New York.

Who's New This Week

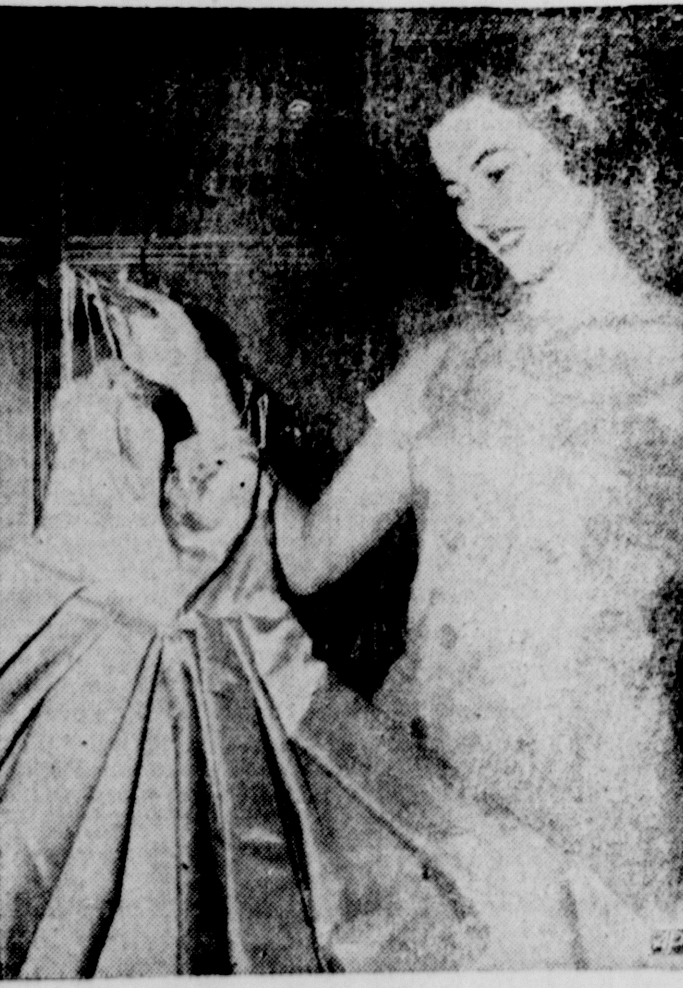

Four new citizens have been recorded at the Hamlin Memorial Hospital since last week's report in The Herald. Three girls and one boy, they are:

A girl for Mr. and Mrs. Jimmy Kiker of Roby was born August 23. Weighing eight pounds three ounces, she will be known henceforth as Debra Elaine.

A girl for Mr. and Mrs. J. Q. Craft of Aspermont arrived August 26. After having her weight checked at a light five pounds four ounces, she accepted the monicker Sherry Ann.

A girl for Mr. and Mrs. Raymond Morales was born August 26. Eva weighed six pounds 14 ounces at birth.

A boy for Mr. and Mrs. Carol W. Wright discovered America on August 31. He balanced the scales at seven pounds 14 ounces, and was labeled Mark Allen.

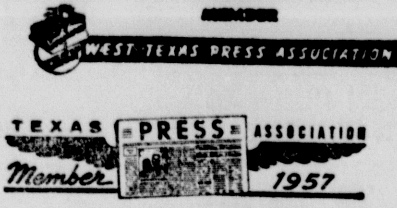

MISS TEXAS PICKS GOWN FOR CONTEST—Mary Nell Hendricks of Arlington, Miss Texas of 1958, is shown here selecting gowns which she will wear in the Miss America contest to be staged in September in Atlantic City, New Jersey. Miss Hendricks, a 22-year-old Arlington school teacher, was named Miss Texas in the contest held in Amarillo. She is shown shopping in Dallas.

NEW UNIFORMS DON'T MAKE ARRESTING EASIER

Being arrested for violation of traffic laws is just as unpleasant as it ever was, it is reported, but there is a new atmosphere about the highway patrolmen that is natty.

On July 1 of this year patrolmen in three divisions of the Texas Department of Public Safety appeared on our Texas highways in new uniforms.

Described as "Texas tan" in color, the new semi-western dress for state law enforcement officers is a slight departure from the metropolitan look of the old uniform. The new dacron-wool shirt and pants, plus jacket for winter use, are currently worn by patrolmen in the license and weight, driver license and motor vehicle inspection services of the Texas DPS. Texas highway patrolmen will have been completely re-uniformed soon.

For summer the lawmen wear light weight straw hats with a western crease, and during winter you will see them in a western creased felt hat. Gun belts and shoes are of black leather.

Up until the July 1 date, a variety of colors were noted in the uniforms of the various DPS officers. Highway patrolmen currently have their blue shirts, beige trousers and short

bilied caps. License and weight patrolmen in their old uniforms wore western styled hats, light brown shirts and dark brown pants. Driver license patrolmen wore billed caps with dark brown shirts and beige slacks. Motor vehicle inspection did not have a uniform. Along with this variety, there was an assortment of accessory colors.

The new uniform not only adds the Texas flavor, but gives a uniformity to the dress of state law enforcement officers that can be easily recognized by the public. The service to which the patrolmen is attached is named on the shoulder patch.

Need for a common dress became apparent when the Texas DPS adopted a modernistic plan of organization September 1, 1957, and law enforcement functions were integrated under six regional commanders and a field operations office. With this change, more emphasis was placed on unification for both efficiency and ease of the public.

The new gear is proudly enhanced by attractive badge that was placed into use by all DPS officers in July, 1957. The "Texas tan" uniform—a Texas product—adds a striking appearance for lawmen of the Lone Star State.

New Cars to Be No Cheaper

You will find the 1959 cars just as costly and full of chromium as this year's models. According to advance information, the new models will bulge wider and extend longer than the 1958s.

In the works are bigger windshields, more chrome and multi-colored anodized aluminum trim. Makes which now have tail fins will have wider and higher ones. There will even be ornaments on front fenders on some models.

Engines and basic mechanical design will reflect one encouraging development—a little less horsepower and more economy in some models.

When you hear complaints about the size of the 1959 cars, remember that almost two out of three car buyers choose the bigger and more expensive models over the small economy types.

Drugs Without Prescription

Advent of penicillin and other so-called wonder drugs has revolutionized modern medical practices. These new drugs—called "antibiotics"—have caught the public's fancy, and have given physicians powerful weapons in their conquest against disease.

But into this symphony of praise has crept a sour note. Cases of incorrect dosage and self-prescription are becoming common, raising the danger of serious reactions.

It is a waste of time to run for a shot of penicillin for an oncoming cold. The drug is ineffective against the viral diseases, including common colds, flu, measles and mumps. Taking penicillin in lozenges or other forms for scratchy throats, for upset stomachs or a variety of mild illnesses which would quickly run their course anyway is unwise unless prescribed by a physician.

A common pattern of self-prescription goes like this: The doctor prescribes an antibiotic for a sick patient. Some of the pills are left over after the patient gets well. Several weeks later the patient again feels bad and on his own initiative, takes the left-over pills.

There are many good reasons why drugs should not be taken without prescription.

Increasing use of wonder drugs have shown up their limitations. A most appropriate rule of thumb to follow in the use of any drug is never to take them without a physician's recommendation.

There are two kinds of women: those that men look up to and those they look down at.—Charming Times

With What We Have

Diogenes wanted only a lantern to help him in his search for an honest man. Many a high school boy thinks that he would be perfectly happy if he had a saxophone. To little boys a pair of roller skates represents happiness.

Mr. Smith, the banker, requires an expensive new car for his happiness. Mrs. Jones must have a new fur coat before she will be thoroughly happy.

A cynic wants a full share of the world's stupidity, for "only the stupid are happy," he thinks. Millions of men in America would be gloriously happy if they could go to work tomorrow morning. Thousands of ill and suffering men, women and children need health to make them happy.

What do you need for happiness? David Swing answers this question for you when he writes: "Let us learn to be content with what we have." Let us get rid of our false estimates and set up the higher ideals—a quiet home; vines of our own planting; a few books full of the inspiration of a genius; a few friends worthy of being loved, and able to love in return; a hundred innocent pleasures that bring no pain or remorse; a devotion to the right that will never swerve; a simple religion that is empty of all bigotry, full of trust and hope and love. And to such a philosophy the world will give up all the empty joy it has."

Editorial of the Week

LITTLE TO FEAR IN SPACE

Flying saucers are back as a hot topic with the statement of a world famed scientist, Dr. Carl G. Jung, that he "can only say for certain that the things (unidentified flying objects) are not a mere rumor." To which he adds:

"I have gathered a mass of observations of unidentified flying objects since 1944. The disks do not behave in accordance with the physical laws, but as though without weight. If the extra-terrestrial origin of this phenomena should be confirmed, this would prove the existence of an intelligent interplanetary relationship."

Still not convinced is the U. S. Air Force. It has stated that it uncovered no proof of the existence of UFOs in 5,700 investigations since 1948.

Yet one doesn't find it too hard to accept Dr. Jung's theory that in the vast universe are beings so far advanced that they have mastered the secrets of inter-planetary travel. So what! Surely these space trotters would be far too smart to bother with this much-troubled globe.—The Grit Magazine.

RECALLING Other Years

★ Being news items taken from old files of Your Home Town Newspaper, The Herald.

THIRTY YEARS AGO.

In scanning the files of Your Home Town Paper, we find the following news briefs, taken from the issue of The Hamlin Herald dated September 7, 1938:

A meeting of citizens promoting the Fort Worth-Roswell-Grand Canyon Highway Association was held Tuesday afternoon at Rotan. Tate May of Hamlin was elected treasurer of the unit.

Mrs. C. N. Dix and little son of Lompock, California, were guests last week of her parents, Mr. and Mrs. T. B. Cooper, 12 miles west of town.

Thousands of visitors are due to swarm in to town Friday for the oil and gas celebration at Hamlin. Arrangements have been made to serve free barbecue to the hundreds of guests expected for the occasion at noon.

Maude Prather of Edinburg and Cornette Hutchins of Plainview, were guests of Mr. and Mrs. D. D. Crow this week.

Letha Rowland returned Saturday from Alpine, where she has been doing advance study at Sul Ross State Teachers College. She will teach the coming year in New Mexico.

Mrs. A. G. Griffin is visiting her son at Westbrook for a month or more.

TWENTY YEARS AGO.

From the files of The Hamlin Herald dated September 2, 1938, the following news briefs of 20 years ago are reproduced:

Jones County voters turned out in good numbers last Saturday for the run-off primary. Total of 3,546 votes were cast in the election that saw the election of Coke R. Stevenson as lieutenant governor, Gerald Mann as attorney general, Jerry Sadler as railroad commissioner, Travis B. Dean as representative, Otis Miller as district judge and B. T. Beaver as county superintendent. Warren Nobles is at home for a vacation from Texas Tech.

Elizabeth Bowyer of Abilene was here Wednesday to visit her friends, Mary Boyd and Annie Louise Johnson. She formerly taught with them at Fort Stockton.

Dr. and Mrs. Carl Rister, who have been visiting her parents, Mr. and Mrs. M. P. May, and other relatives, returned to their home at Norman, Oklahoma, Thursday. They were accompanied by Mr. and Mrs. J. Frank Johnson, who will remain for a week's visit.

TEN YEARS AGO.

Events in the Hamlin community 10 years ago included the following, reprinted from the issue of The Hamlin Herald dated September 3, 1948:

Nine directors were named by a meeting of stockholders of the Hamlin Memorial Hospital held Thursday evening at the high school auditorium. Elected were C. P. Amerson, Fred H. Britton, Holly Toler, Willard Maberry, Clyde R. Angel, Tom Holman, J. B. Terrell Sr., J. S. Inzer and Fred B. Moore Sr.

The 1948 version of the Hamlin High School Pled Piper football team will be ready for the opening game of the season Friday night, when they meet the Stamford Bulldogs, according to Red Burditt and John Howell, grid coaches.

FIVE YEARS AGO.

Goings-on in the Hamlin community are reflected in the following news briefs, taken from issue of The Hamlin Herald dated September 4, 1953:

New generating station of the West Texas Utilities Company on the recently completed Paint Creek Lake, northeast of Stamford, is producing an additional 33,000 kilowatts of electric power for this area. Stamford and Hamlin are taking domestic water from the lake.

New minister of the Hamlin Church of Christ is E. M. Borden Jr., who comes next week from Earth. He succeeds Warder K. Novak, who resigned July 1 to go to Snyder.

A rousing welcome home was given Mickey K. Scott, Hamlin Marine, who recently was released from a Korean prison camp after an absence of nearly four years.

ONE YEAR AGO.

News hits from The Hamlin Herald dated September 5, 1957, include the following:

Considerable damage to cotton crops in the Hamlin area was done by hail that fell Tuesday night. Third Hamlin High School student homecoming has been set for Friday, October 18.

JHS Pled Pipers will begin their 1957 football season Friday night when they meet the Ruby Lions on the local grid.

Congressman Burleson Says Action on Farm Legislation Is Imperative Soon

Members of Congress from cotton producing areas agree on one thing—certainly there is a need for new legislation, declares Congressman Omar Burleson, in his weekly news release from Washington. His release continues:

The Senate has passed a bill which, in effect, permits two choices for farmers. One is to have increased acreage with lower price supports, and the other is to reduce acreage and maintain higher support prices. The Senate bill also junks the present concept of "parity" and substitutes a loan value based on the past three years.

At the present, the House committee on agriculture is not looking with favor upon the Senate bill and is attempting to produce one of its own. It is certainly hoped that some constructive measure can be produced before the Congress adjourns. It is the last chance for a farm bill in this session.

This past week the House of Representatives passed H. R. 10, known as the Jenkins-Keogh bill, providing that self-employed people, such as those engaged in the professions, druggists, barbers and others, be allowed to have their own retirement fund. The bill provides that a self-employed person may defer income taxes on 10 per cent of his income up to \$2,500 a year, but not more than \$50,000 in a lifetime, as a "set aside" for old age. This measure seems only fair to those people who are not eligible for social security under the present law.

On May 15 this column predicted that the administration would again ask Congress for authority to increase the government's permanent debt limit.

Several Hamlin area veterans have participated in the veterans' land program of the state of Texas already, and still others will secure land holdings under provisions of the act.

A new information booklet about the Texas veterans land program has been printed and is now being distributed. Land Commissioner Bill Allcorn says.

"Veterans, attorneys and others interested in the program will find the new booklet of especial interest and help," Allcorn believes. The pamphlet was published to meet an increasing demand for information about the speeded-up veterans' land program, the land commissioner notes.

"In rewriting this material we have included changes in the program since the last booklet appeared late in 1955. Our new pamphlet has been written so that it is easily read," Allcorn explains.

The booklet is divided into two parts. One outlines procedures and information, and the other is the veterans' land act.

The booklet may be obtained without cost by writing to Allcorn at the General Land Office, Austin 14, Texas.

GUESTS OF PATTERSONS.

Mr. and Mrs. LaFoy Patterson had as guests over the Labor Day week-end their daughter and family, Mr. and Mrs. Ray Davis and son, Raymond LaFoy, of Greenville.

Lyn Cooper, 17, of Plainview is the new Miss Wheatheart of the nation. She was crowned at the annual contest held in Perryton and was selected over 17 other High Plains contestants.

VISITS AT HOUSTON.

Mrs. John R. Brown Sr. spent last week at Houston with her daughter and family, Mr. and Mrs. P. E. Hetzel and Taras.

Chiropractors of Area Will Attend Officer Gathering

Dr. William A. Pattillo of Hamlin will be among the more than 100 chiropractic leaders from all parts of the state who will gather in Austin Saturday, September 13, for the fourth annual district officers' conference of the Texas State Chiropractic Association.

Purpose of the conference is to orientate newly elected officers of the 12 association districts in Texas with the aims, objectives and accomplishments of the association and to promote a closer unity between individual practitioners and the state organization through district groups.

Lectures during the one-state session will be given by state officers and committee chairmen, who will explain the program and plans of the state organization.

Advertising, insurance and ethics will be emphasized during the discussions.

The following officers from West Texas are expected to attend: Dr. William A. Pattillo of Hamlin, president; Dr. Bettye J. Shipman of Sweetwater, vice president; Dr. L. C. Renken of Miles, secretary-treasurer; Dr. A. M. Fischer of Coleman, Dr. Jim Wolfe of Abilene and Dr. C. L. McInturf of Abilene, district directors; and Dr. R. E. Capshaw of San Angelo, state directors.

VISIT AT WELLINGTON.

Mr. and Mrs. Delbert Smith visited with Mr. and Mrs. Wade Welch at Wellington for several days. They returned home Monday.

Jones County Girl Named as District Queen at FB Meet

Jones County's representative at the District 7 Farm Bureau convention held Saturday at Coleman was named district Farm Bureau Queen before several hundred at the coronation Saturday night. B. J. Gist, Hamby farmer who is director of District 7, crowned the slender honey blond, Mary Ruth Thorn of Anson.

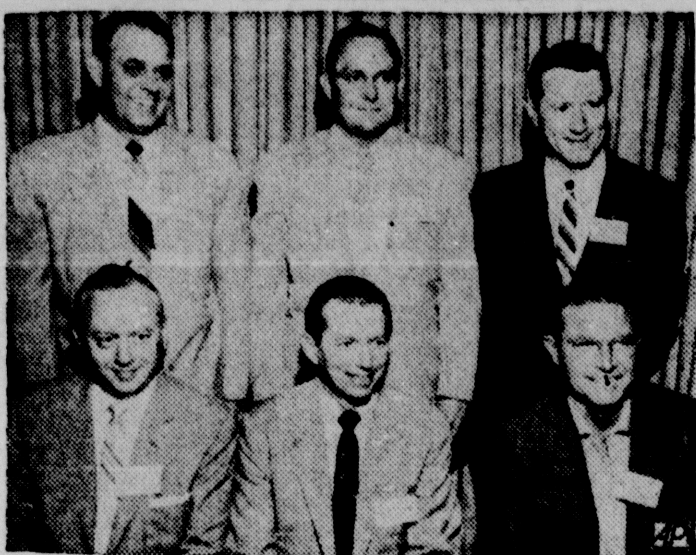

The district queen, a 1957 graduate of Anson High School, was named county Farm Bureau Queen three weeks ago. She won over 10 other contestants from Central West Texas counties.

The daughter of Mr. and Mrs. Clifford Thorn, an Anson farm family, Miss Thorn declared that she is "proud to be just a country girl." She attended Texas Technological College at Lubbock last year, and is employed by an optometry firm in Abilene.

Scores of Farm Bureau members and their families were present for the district meeting from the Jones County organization, of which C. E. Gregory of Neinda is president.

VISIT FROM TEXAS CITY.

Mr. and Mrs. Horace Ed Crow and Karen spent Labor Day weekend with their parents, Mr. and Mrs. Earl Crow. Horace Ed is a construction engineer for Monsanto Chemical Company at Texas City.

OFFICERS ELECTED—New officers of the Texas Poultry Improvement Association elected at the thirty-fifth annual convention held in Dallas are (left to right) seated: C. D. Calhoun of Tyler, first vice president; Jack W. Martin of Stephenville, president; W. B. Griffin of Santa Anna, second vice president; standing: W. J. Moore of Bryan, outgoing president and director of American Poultry and Hatchery Federation; L. M. Manford of Nixon, second vice president APHF; and Vern F. Steckley, president of APHF of Kendallville, Indiana.

Suggestions Made to Cotton Farmers On Defoliation Methods for Crops

Scores of Hamlin area cotton farmers will defoliate their cotton this year and use machines to harvest the crop that now looks like only an average to poor one.

A good cotton defoliation job will return dividends in terms of less trash and green stain and better grades if harvesting is done by machine, says Fred C. Elliott,

extension cotton specialist. This is especially true, adds Elliott, if the plants are tall, leafy and succulent.

The specialist points out that the best time for defoliation will vary with the weather, condition of the crop and the principal benefit expected. In general, however, application of the true defoliants should be delayed until 55 to 60 per cent of the bolls are open. Dew is necessary to activate dust defoliants, while those applied as sprays should be used in accordance with recommendations listed in L-145, "Guide for Use of Cotton Defoliants," which is available from the offices of local county agents or as recommended by the manufacturer of the material.

Elliott points out that a combination of one pound per acre of 90 per cent amino triazole with one-half the recommended spray defoliants usually gives good defoliation and adequate control of second growth. Except under favorable conditions, true defoliants do not always give acceptable results for mechanical stripping, says Elliott. Therefore, desiccants are recommended but they should not be used until the top bolls are mature and a full 60 per cent or more of the cotton is open. Desiccants are used to kill and dry out the plants if the cotton is to be stripped by machine before frost.

Elliott warns that good coverage of the cotton plant by the defoliant or desiccant is a must if the best possible defoliation is to be obtained. Spray applied in too little water per acre is listed by the specialist as the most common mistake made by both operators of ground sprayer rigs and planes. Finally, the specialist advises producers to keep cotton dry, loose and clean for better ginning and quality.

God has two dwellings; one in heaven and the other in meek and thankful hearts.—Izaak Walton.

Criminal Activities of Under-Agers Increasing, Says State Crime Officers

City and county officers in this area have indicated that criminal activities of persons under 21 years of age, following the trend over the rest of the state, are increasing in a report released by the Texas Department of Public Safety to The Herald.

The DPS said its count of finger-print records of persons 20 years of age or younger for the year 1957 was 14 per cent greater than 1956, while 4,493 persons of 17 years of age were finger-printed in investigations, more than for 1956. A total of 16,146 finger-print cards of youthful criminals were received by the department in 1957, while 18,768 were received in 1956.

The greatest increase involved 17-year-olds, followed by the 18, 19 and 20-year-old groups. A considerable jump was noted in the number of finger-print cards received from the 16 and 17-year-old groups. A total of 1,083 cards

The DPS said the card count was not a conclusive means of totaling the number of criminals of these age groups since many minors are not finger-printed. However, a general increase in crimes for these age groups is reflected in the information.

General criminal offenses in Texas during 1957 for persons of all age groups occurred at the rate of 424 offenses per day, according to a department crime report recently submitted to the newly organized State Law Enforcement Study Commission. In that report Colonel Homer Garrison Jr., director of the Texas DPS, said major crime in Texas for 1957 was up 9.2 per cent over the year 1956.

Most of the increases, he said, came in urban areas, while rural areas experienced a decrease. Urban was up in all categories but one, while rural was down in all classifications but one.

Murder led all categories in the 1957 increase with a total of 1,084 such crimes—a 25.2 per cent increase over the previous year. Rape showed a 3.4 per cent decrease, robbery 10.4 per cent increase, burglary 6.3 per cent increase, aggravated assault 4.1 per cent decrease, theft 10.3 per cent increase and auto theft 17.4 per cent increase.

In comparing rural crimes with urban crimes, Garrison said murder was up in both instances—rural up 13.4 per cent and urban 35.4 per cent. Auto theft in urban areas was up 21.4 per cent, robbery up 15.9 per cent, theft up 13.6 per cent and burglary increased 10.3 per cent in urban areas.

Among the leading decreases in rural crime for the year 1957 came aggravated assault with 10.6 per cent. Next in line was a 7.8 per cent decrease in rural thefts.

CARLTONS VISIT.

Mr. and Mrs. Buren Carlton visited for several days with Mr. and Mrs. Kenneth Barnett and family at Tucumcari, New Mexico.

EASTLAND TILT

(concluded from page one)

The B team to bolster the squad. Halfback Larry Hollis, Quarterback Clint Humphrey and Guard Knicker Arthur are stalwarts of the Eastland Crew. Other standouts from last year's team are Bill Turner, Stanley Reed, Mike Manning, Phillip Lewis, Truman Lane, Marvin Agnew, Mike Lisenbee, Freddie Miller and Gary Lusk.

A big delegation of fans, headed by the Hamlin Pied Piper Booster Club, is expected to follow the team to Eastland Friday evening. Cars will meet in front of the high school building at 5:45 o'clock tomorrow afternoon, where they will be decorated in school colors, then the group will travel in a caravan to Eastland. Boosters are urged to remain with the caravan for a parade in downtown Eastland on arrival, according to Wayne Stallcup, Booster Club president.

The Herald has carbon paper.

North Central Baptist Church Revival Ends

Six additions to the church were among visible results of the 10-day revival meeting concluded recently at the North Central Avenue Baptist Church, according to Rev. Woodrow McHugh, pastor.

Evangelist for the series of services was Rev. Bill Carter of Hobbs, New Mexico, who is pastor of the Rock Chapel Baptist Church near Hobbs.

COTTON FIRE

(concluded from page one)

mond of the gin had brought the cotton to town for display at the request of officials of the Hamlin Board of Community Development as a courtesy.

Police Chief E. B. (Buddy) Watson declares that no arrests have been made in connection with the fire. However, his department has some leads in connection with the case, he says.

Asa Goodgame of Hamlin and Deming, New Mexico, Girl Married Saturday

First Methodist Church at Deming, New Mexico, was the setting Saturday morning for the wedding of Ruth Ann Phillips of Deming and Asa Goodgame of Hamlin.

Hamlin People See Indian Exposition on Visit to Anadarko

Mr. and Mrs. Earl Crow and Mrs. Melvin Crow returned Friday from a trip to Kansas and Oklahoma. They visited their sister, Mrs. A. R. Prosser, and family at Wichita, Kansas. Mrs. Prosser is ill.

The Hamlin group attended the Indian Exposition at Anadarko, Oklahoma. They say the parade alone is well worth the trip to Anadarko. Indian tribes from "all over" take part in this fair. Tribes from as far away as the Aztecs of Mexico participate. Each tribe has customs peculiar to themselves. Indians in ancient war bonnets, paint, feathers brightly colored, bells, etc. take part. These war bonnets are handed down from generation to generation. Each tribe's princess led the group, followed by other members of their tribes in war paint, etc.

The princesses ride in cars decorated with various articles of their handiwork, the seat (or throne) covered with brightly colored blankets and shawls. Most of the girls wore white buckskin dresses, beads, etc. Watching the parade one forgets for the moment that many of the participants are college graduates.

The Crows' only regret was that they did not have a movie camera along. The parade lasted nearly two hours.

The pastor, Rev. Hollis Shook, officiated at the rituals.

The bride is the daughter of Mr. and Mrs. Shelby Phillips Jr. of Deming, and he is the son of Mrs. Opal Goodgame of Hamlin.

Wayne Anderson of Fort Worth and Ann Bounds of Alpine were the couple's only attendants. Ushers were Ronald Poynter and Shelby Phillips III, brother of the bride.

A reception was held in the La-Fonda ballroom. Members of the house party were Diane Burt and Miss Bounds.

After a wedding trip to Cloudcroft, New Mexico, the couple will make their home at 3524 Kent Avenue in Fort Worth.

The bride is a graduate of Deming High School, Stephens College in Columbia, Missouri, and the Harris School of Nursing at Texas Christian University at Fort Worth.

Young Goodgame is a graduate of Hamlin High School and attended Texas A. & M. College. He is presently attending TCU.

VISIT IN NEW MEXICO.

Mr. and Mrs. Joe A. Simpson and daughter, Carol Joe, spent the Labor Day week-end at Las Cruces, New Mexico, with their other daughter, Faith, and her husband, Charles Absher, and their baby, Lisa Joe. The Abshers came from Fort Huachuca, Arizona, where Charles is stationed with the Army.

A man must be stupid who believes there is no truth but on his own side.—Joseph Addison.

THESE WOMEN!

"She'll answer your note, sir, as soon as she knows a little more about you, she says!"

Consumption of Milk in U.S. Averaged Some 695 Pounds Per Person in 1957

The average person in the United States in 1957 consumed milk and other dairy products which utilized 695 pounds of milk, according to A. M. Meekma, extension dairy husbandman.

The average consumer bought 142 quarts of fluid milk, which headed the list of individual purchases, says Meekma. Cream was second at 43 pints (milk equivalent) and butter was third with 8.4 pounds.

Per capita consumption of other dairy foods was 7.8 pounds of cheese; 15.1 pounds of evaporated and condensed milk; 5.7 pounds of non-fat dry milk; 19.8 quarts of ice cream and other frozen dairy products; 5.2 pounds of cottage cheese; 5.4 quarts of fluid non-fat milk; 16.4 quarts of buttermilk; and 4.1 quarts of chocolate milk.

Twenty cents out of each food dollar, or 20 per cent of the food budget, was spent for the above listed foods.

The money price of milk may be seemingly high, but the "real" price has shown a sharp decline,

points out the husbandman. For example, in 1890 milk retail at an average of seven cents per quart. Despite this low price, the factory employee had to work about 25 minutes to earn wages equal to the price of a quart of milk. By 1929 it took 15 minutes for the worker to earn a quart of milk. In 1947 it took 10 minutes, and in 1957 it required only seven minutes.

Dairy farmers produced 126,300,000,000 pounds of milk in 1957. This all-time record production 20,500,000 cows, a smaller herd than the United States has had at any time in the last 40 years. The increased total production was due to greater yield per cow—a three per cent increase over 1956 to an average 6,162 pounds per cow. Had the 1957 herd produced only at the 1925 rate, 50 per cent more cows would have been needed to meet the production record of 1957, says Meekma.

Net value of Texas' industrial production increased 930 per cent in the 14 years after 1939.

U.S. Senator Lyndon Johnson Points to Record of Action by Present Congress

The work of this session of Congress has resulted in a record of productivity that compares favorably with the record of any congressional session in our history, declares U. S. Senator Lyndon B. Johnson, in his weekly news release to The Herald. His release continues: As this is written there are still important measures to be enacted before adjournment. But the record already made is one that does credit to our representative form of government.

In the field of national security, as I pointed out in my news letter last week, Congress took definite steps to strengthen our defenses and to improve our position in the space age.

Also, we met the threat of economic recession with a series of legislative measures prudently designed to combat the slump in business and to provide jobs for people who need them.

Effects of much of the legislation enacted during the last seven months will be felt for years to come. Space does not permit the listing of all the important bills passed, or even of most of them. But among the outstanding ones are these:

Resolutions calling for speeding up of previously authorized military construction and public works projects.

A new highway bill setting up a program to bring better roads to all our people and provide many, many new jobs.

The biggest health research program in history.

Extension of unemployment compensation—a life-saver for people who had been laid off from their jobs.

A housing bill to stimulate home building. Its good economic effects already are being felt throughout the country.

We authorized construction of a long list of water control and conservation projects in Texas.

The Senate passed, and I hope the House of Representatives will approve, a farm bill of great importance to Texas cotton and rice producers, to wool producers and to other farmers.

A bill creating a permanent small business administration with

greater lending authority and lower interest rates.

A bill to save the country's railroads from bankruptcy.

When will Congress adjourn? Guesses are plentiful, but no one knows the exact date. There is still work to be done. Action remains to be completed on proposed legislation of importance.

These past seven months have been all business so far as Congress is concerned. The concluding days or weeks of the session may be expected to follow the pattern that has been set. That means we will be working right up to the hour of adjournment, on matters affecting the well-being of the American people.

That is precisely as it should be.

Methodist Women In Church Program

Members of the Bonnie McBride Circle of the Woman's Society of Christian Service of the First Methodist Church met at the church last Friday morning with the following present: Mmes. L. C. Bonds, James Ballard, J. E. Harrison, Parker Kelly, Richard Young, Stanley Burge, Edmund Robb, W. L. Hunter and Phil Smith.

Mrs. Phil Smith gave the program on the fifth assembly of the WSCS. Next meeting of the group will be in the home of Mrs. J. E. Harrison.

BALLEWS AT REUNION.

Mr. and Mrs. S. C. Ballew last week attended the annual Ballew family reunion at Reager Springs. Mrs. J. R. Ballew, mother of the Hamlin man, was the oldest person present. Five generations were present. More than 100 relatives attended the get-together.

Every thought, which genius and peity throw into the world alters the world.—Ralph Waldo Emerson.

PERT PLAID—Cheryl Ann Summers of East Point, Ga., 1958 Little Miss Cotton, knows her ABC's of fashion. Her dress by Tiny Town Togs is interpreted in Mission Valley plaid trimmed with white cotton lace.

Ronnie Parker Will Resume Youth Place

Ronny Parker, Hamlin youth who will be a junior ministerial student at McMurry College at Abilene this fall, will return next Sunday, September 7, as youth worker in the First Methodist Church, according to announcement by Rev. Edmund W. Robb, pastor.

Ronny, the son of Mr. and Mrs. Kenneth Parker, has spent the summer in central states selling books and Bibles.

Ballpoint pen refills at Herald.

Fiftieth Anniversary To Be Observed by Bowen Popes Sunday

Announcements are out that the daughters of Mr. and Mrs. Bowen Pope will sponsor an open house reception honoring their parents on Sunday, September 7, at the residence on Northwest Avenue B from 3:00 until 6:00 p. m. marking the fiftieth anniversary of their marriage.

Mr. and Mrs. Pope have resided in Hamlin since early in 1914, when he became owner and publisher of The Hamlin Herald. Both Mr. and Mrs. Pope were actively engaged in the newspaper work for nearly 32 years.

The pioneers have lived at the same place, corner of Northwest Avenue B and Second Street, about 41 years, and in Hamlin for more than 41 years.

RUSSELLS BACK HOME.

Mrs. W. C. Russell returned home Sunday from Ruidoso, New Mexico. Mrs. Russell has spent the summer at the resort, and Ted has gone up several times to spend several days.

New FRIGIDAIRE

Refrigerator-Freezer

and
it
never
needs

DEFROSTING
it's Frost-Proof

Now—a freezer compartment that never needs defrosting. No more dripping, dirty frost water—no more spill or mop-up. No more frost-locked packages and trays—because there will never be any frost to defrost—in this patented Frigidaire Frost-Proof Refrigerator-Freezer.

How does Frigidaire do it? By an entirely new kind of cold that whisks away heat and moisture—out of the freezer forever—so frost can never form. Food flavors and vitamins are locked in by perpetual below-zero cold.

And up in the refrigerator compartment, all foods are super-chilled with Frigidaire "Flowing Cold"—yet, here too, there's never any frost to defrost.

In every detail, it's the world's finest food-keeper—from its new Sheer Look styling to its mammoth 133-pound freezer chest, with In-a-Door Ice-Ejector that serves you sparkling-dry ice cubes by the score. See Frost-Proof Freezing at your Frigidaire dealer's. So amazing you won't believe it until you see it.

Special prices on all Frigidaires during this month. You will want to see this Frigidaire Refrigerator-Freezer that never needs defrosting. Come in soon!

Light Infestations Of Cotton Insects Continue in State

Continued light infestations of cotton insects have marked the cotton situation report issued by the Texas agricultural extension service in cooperation with the plant best control branch of the U. S. Department of Agriculture, in the weekly release to The Herald. Highlights from the state report, with a complete report on the Northwest Texas area of which the Hamlin section is a part, follow:

Cotton insect activity is very light throughout the state except in a few isolated areas. A heavy infestation of fleahoppers was reported from Briscoe County in the North Plains area and in Cottle County in the Northwest area. Bollworm infestations are generally light except for reports of heavy infestations in several counties in the South Plains area.

Boll weevils were reported heavy in isolated sections of the Central, Northeast and North Central areas. Cotton leafworms were reported light in the West Central and Northwest areas. Cabbage looper and aphid infestations have increased somewhat in the South Plains area.

Thrips infestations were reported very light in Hall and Motley Counties while Wheeler County reported medium infestations. Light infestations of fleahoppers were observed in Hall and Jones Counties, light to medium in Motley County, medium in Wheeler County and heavy in Cottle County. Bollworm populations were noted to be light in Wheeler and Jones Counties; heavy in Scurry, Motley and Cottle Counties. Light infestations of cotton leafworms were reported from Cottle County.

STUPID, THAT'S ALL.

"Aren't you ashamed, making your wife support you by taking in washing?"
"Yes, but she's too dumb to do anything else."

HELPS MAKE SERUMS—Old Ned and 27 of his stable mates live a life devoted to science in the Globe Laboratories at Fort Worth. The horse is a living factory of anti-serums for hemorrhagic septicemia and erysipelas, cattle and swine diseases. Each horse gives blood every month for production of anti-serums as Old Ned is doing.

McHugh Conducts Revival at Lakeview

Rev. Woodrow McHugh, pastor of the North Central Avenue Baptist Church, returned Monday from Martin County, where he led in a week's revival at the Lakeview Baptist Church. Rev. Oddis Perry is pastor of the West Texas church.

McHugh reports that during the meeting there were nine additions to the church, seven by baptism and two by letter.

Speak when you're angry and you'll make the best speech you'll ever regret.

Two-County Singing Slated in City Sunday

Singers and song lovers of the area are advised that the Jones and Fisher County singing will be held the first Sunday in each month.

Singing will be Sunday, September 7, at the Hamlin Four-square Gospel Church, corner of Southwest First Street and Avenue D. Slated to begin at 2:00 o'clock, the public is invited to the songfest, declare leaders of the musicale.

When day is done you frequently find out not much else has.

Riding Club Group Rides in Roby Parade

Several members of the recently organized Hamlin Riding Club and their mounts participated last Thursday evening in the opening parade of the Fisher County Fair and Rodeo at Roby. The parade was a colorful, lively affair, witnessed by several thousand West Texans who were on hand for the thirteenth annual fair and rodeo, which continued for three days and nights.

The annual show, which was greatly expanded this year, provided exhibits and entertainment of high quality, say those who attended.

Real friends are those who, when you've made a fool of yourself, don't feel that you've done a permanent job.—Erwin T. Randall.

Slight Decline Made In Attendance Total At Sunday Schools

Slight drop in total attendance at Sunday Schools of Hamlin churches was registered Sunday from the previous week, probably due to the Labor Day holiday week-end that took many people on week-end outings and visits. The 1,242 total was 20 less than the previous Sunday, but was 47 more than the year ago total.

Attendance, by churches, for August 31, August 24 and a year ago follow:

Churches—	Aug. 31	Aug. 24	Year Ago

Roby Pastor Speaks To Methodist Men

Rev. James Kirby of Roby, who recently returned from Cambridge, England, where he did special work, was the speaker when the Methodist Men of the First Methodist Church met Tuesday evening in the monthly covered dish supper in the fellowship hall of the church.

More than a score of men of the church and invited guests were present for the get-together and program.

Special Rate Offered On Herald to Students

As in years past, The Herald this week is announcing its annual special bargain rate on subscriptions for Hamlin area students going away to college.

For only \$1.50 The Herald will be sent each week to any college student through the month of May, 1959. That's only about four cents per week—the price of a postage stamp on a letter, and Your Home Town Paper is like a letter from home, you know. Come in or phone your subscription order to that college student today!

TV Stars to Appear At Prison Rodeos During October

There's always something new at the Texas Prison Rodeo, and out-of-this-world presentation for the twenty-seventh annual event will be the personal appearance of four of the nation's best known Western television stars.

H. H. Coffield of Rockdale, chairman of the Texas Board of Corrections, announces that Richard Boone, star of "Have Gun—Will Travel," Dale Robertson of "Tales of Wells Fargo," Ward Bond of "Wagon Train," and Robert Culp, star of "Trackdown," will make personal benefit appearances on successive Sundays, in the prison's million dollar stadium in Huntsville. Scores of Hamlin area people attend the rodeo each year.

Primarily these TV personalities were engaged to boost ticket sales for this unusual entertainment feature, which in turn will swell the prisoners' welfare fund to aid 10,500 inmates of the Texas Department of Corrections.

"It is our opinion," declared Chairman Coffield, "that the addition of these top flight stars to the Prison Rodeo will serve a dual purpose."

"First of all, thousands of rodeo fans will be given an opportunity to meet these stars in person. Secondly, inmates attending the rodeo will get an added thrill of another entertainment facility, all of which amounts to the development of a well rounded prison rehabilitation program."

Need for additional welfare funds was pointed out by Coffield which he said was due to the unusual growth of the Texas penal system.

Coffield also remind citizens of Texas that, since the Legislature does not appropriate funds for inmate welfare work, net proceeds from the annual Prison Rodeo is the only way inmates can receive a host of services not provided by the state.

TRUE HAPPINESS.

"Congratulations, old man. I'm sure you'll remember this day as the happiest day of your life."

"But it's tomorrow I'm being married," said the prospective bridegroom.

"Yes, I know that," answered the friend gently.

Most of City Firms Closed for Labor Day

Monday was a quiet day in the old home town. Practically all business houses were closed in observance of Labor Day as a holiday, and much of the business section was pretty well deserted for the most part.

Many people of the community had taken advantage of the Labor Day week-end to have their last flings at vacationing, outings and visits. Start of school was delayed one day on account of the holiday, one of six during the year approved by a vote of merchants at the first of the year.

BCD Secretary Goes To Clinic at Abilene

Mrs. Ned Moore, secretary of the Hamlin Board of Community Development, Saturday attended sessions of the seventh annual short course for Chamber of Commerce managers, staff, office secretaries and presidents sponsored by the community services department of the West Texas Chamber of Commerce, held at the Wooten Hotel in Abilene.

Also attending the sessions with Mrs. Moore was her daughter, Mrs. Joe Don Hymer of Austin, who has been a guest in the Moore home for several days.

Stricter Laws for Drinking Drivers Urged by Speaker

Need for revisions and additions to the state laws governing automobile drivers was stressed when Ben Walker, district highway patrolman of the Abilene office of the Texas Department of Public Safety, spoke at the Tuesday noon luncheon of the Hamlin Lions Club at the oil mill guest house.

Walker, who has been a state highway patrolman for several years, especially stressed the need of laws to make the conviction of drinking drivers more effective. "With a shrewd lawyer and technical maneuvers, a drinking driver is difficult to convict under present statutes," Walker explained. A driver cannot be forced to submit to a blood test for alcoholic content, and evidence of alcohol in the blood, even if a motorist gives blood for the test, will not be accepted by juries except in cases of manslaughter or homicide charges.

Walker urged hearers to write their legislators urging passage of bills due to be presented to the next Legislature setting up strict chemical tests to determine drinking drivers. He also urged adoption of stricter drivers' license laws in handling of license revoking for drinking drivers.

The highway patrolman pointed out that 52 per cent of all rural accidents involve drinking drivers; 34 per cent of all fatal accidents involve drinking drivers; and 38 per cent of all fatal pedestrian accidents involving drinking drivers.

B. V. Newberry, recently named acting Lions Club president, was in the chair. Two elected presidents have resigned since election of officers. Newberry succeeds Stan Sheppard, who moved last week-end to Bay City.

LOVELLS HAVE GUESTS.

Mr. and Mrs. Carl Mounce and sons, John and Gaston, and Mr. and Mrs. Harvey Trussell and children, Opal and Wesley, of Fort Worth were guests of the Charles Lovell family over the week-end. Mrs. Mounce and Mrs. Trussell are sisters of Mrs. Lovell.

STUCK—Stanley Byrd, nine, of Fort Worth tugs in vain to get his horse, Black Jack, from between two trees where the animal was wedged when it tried to get into another pasture. Finally a wrecker operator looped a cable around one of the trees and enlarged the opening. He wouldn't charge for the job. He said it was unique in his experience.

Water Development in Texas Is Vital To Future of State, Declares Senator

Water development and potentialities of the state of Texas are the subject of a report prepared at my request by the Corps of Engineers, the Bureau of Reclamation and the Soil Conservation Service, in collaboration with the Texas Board of Water Engineers, points out United States Senator Lyndon B. Johnson in his weekly news release to The Herald. His release continues: The report, released this week, represents a long step toward meeting the No. 1 problem of Texas.

That problem is the conservation, control and development of our water resources. It is a problem that becomes more serious each year as a result of our state's great growth in population, industry and agriculture.

The future growth and progress of Texas will be limited only by its available supplies of water. Growth is already being limited to some extent, and the limitation will continue and become intensified unless and until an adequate state-wide program for control and use of the state's water resources is developed.

An important beginning has now been made toward development of such a program. This new water report was not designed to put forward an overall state-wide water development plan. But it does show how we can reach the objective of bringing such a plan into existence.

The report points the way toward preparation of a state program to control floods in Texas and to meet the water supply needs of the future.

It establishes a pattern for determining what the controlling elements of a long range Texas water program should be.

It sets out a plan of action for reaching a realistic and effective solution of the Texas water problem.

It presents a comprehensive inventory of the water resources of Texas.

It gives full recognition to the sovereignty of the state over its water resources and establishes that the federal agencies can make major contributions to the evolution of a plan to control fully—and to develop fully—these resources.

The goal is to make adequate supplies of water accessible when and where required. That goal can be reached only by state-wide planning. Basic responsibility for planning leadership rests with and must be exercised by the state. For the state owns the waters and

CONTRACTORS' NOTICE OF TEXAS HIGHWAY CONSTRUCTION

Sealed proposals for constructing 9.444 miles of grading, structures, base and surfacing from U. S. 180 to 4.7 miles south, and from Stonewall County line to Hamlin on Highway FM 611 and FM 2481, covered by R 983-2-4 and R 1747-3-1 in Fisher and Jones Counties, will be received at the Highway Department, Austin, until 9:00 a. m., September 16, 1958, and then publicly opened and read.

This is a "Public Works" project, as defined in House Bill No. 54 of the 43rd Legislature of the act, as defined in House Bill No. 115 of the 44th Legislature of the State of Texas, and as such is subject to the provisions of said House bills. No provisions herein are intended to be in conflict with the provisions of said acts.

In accordance with the provisions of said House bills, the State Highway Commission has ascertained and set forth in the proposal the wage rates for each craft or type of workman or mechanic needed to execute the work on above named project, now prevailing in the locality in which the work is to be performed, and the contractor shall pay not less than these wage rates as shown in the proposal for each craft or type of laborer, workman or mechanic employed on this project.

Legal holiday work shall be paid for at regular governing rates.

Plans and specifications available at the office of Nelson Shave, Resident Engineer, Hamlin, Texas, and Texas Highway Department, Austin. Usual rights reserved.

Horace A. Payne with Naval Mine Depot

Horace A. Payne, chief engineer in the U. S. Navy, son of Mr. and Mrs. B. C. Payne of 813 Southeast Avenue A, Hamlin, and husband of the former Alida F. Richter of Follansbee, West Virginia, is serving with Guided Missile Unit 51 at the Naval Mine Depot at Yorktown, Virginia.

The unit, a shore based detachment of Submarine Squadron Six, prepares the Navy's Regulus I missile for delivery to missile launching submarines.

determines the use to which they will be put.

The great accomplishments of this comprehensive report is that it creates an avenue for the establishment of a state-wide water plan. In doing so, it gives us a vision of a time when the recurrent cycle of flood and drought in Texas will not be the unmitigated disaster it has so often been in the past.

That is the vision we must work to realize.

HAMLIN MEMORIAL HOSPITAL

Patients admitted to the Hamlin Memorial Hospital since last week's report in The Herald have included: Guy Teffeller of Roby, medical, August 24; Mrs. Wilson Brannon, medical, August 24; Mrs. Raymond Morales, ob., August 25; Mrs. J. Q. Craft of Aspermont, ob., August 26; Mrs. T. C. Gregory, medical, August 26; Mrs. Ed Croan, medical, August 26; Joe Kraft, medical, August 27; C. F. Teichelman of Stamford, medical, August 27; C. A. McHone, medical, August 27; Mrs. J. W. Brown, medical, August 27; Stephen Willingham, medical, August 27; Mrs. Joe Murff, medical, August 28; J. W. Harless, medical, August 28; E. R. Ware of Aspermont, medical, August 29; Boyce Ellison of Aspermont, medical, August 29; Mrs. R. L. McClung, medical, August 29; Buddy McClung, medical, August 29; Gayle Wigginton, medical, August 30; Mrs. A. Spencer, medical, August 30; Mrs.

Carol Wright of Haskell, ob., August 30; Mrs. J. L. Mash of Roby, medical, August 30; Mrs. R. A. Guthrie, medical, August 30.

Patients Dismissed—Mrs. Johnnie Sedberry, August 26; Tom Campbell, August 29; Mrs. Roy Carmichael, August 29; Mrs. Annie Newberry, August 29; Mrs. Louis Stinnett, August 29; Robert Murff, August 27; Mrs. S. C. Ferguson Sr., August 27; Mrs. Jimmy Kiker, August 27; Lloyd Boren Jr., August 26; Mrs. Leona Buckley, August 24; Guy Teffeller of Roby, August 27; Mrs. Wilson Brannon, August 28; Mrs. Raymond Morales, August 29; Mrs. J. Q. Craft of Aspermont, August 29; Mrs. Ed Croan, August 31; R. R. Christian, August 29; C. F. Teichelman of Stamford, August 30; C. A. McHone, August 28; Mrs. J. W. Brown, August 28; Stephen Willingham, August 29; J. W. Harless, August 29; Mrs. R. L. McClung, August 30; Buddy McClung, August 30.

Schools Get Off to Busy Start Tuesday

There was hustle and bustle at the four Hamlin Schools and downtown Tuesday morning as hundreds of students of the community began work of the new 1958-59 school term.

Enrollments went off smoothly at Hamlin High School, Junior High School, Elementary School and Primary School, declare principals of the divisions. Slight increases in enrollment over last year were reported at all schools.

Since Monday was a holiday for most business firms, there was a rush by many students early Tuesday morning downtown to get last minute school supplies.

Nothing can cook your goose quicker than a hot temper.

McCaulley to Play Divide Crew Friday

McCaulley High School's six-man football team will get off to an early start of play tomorrow (Friday) night with a game at Divide with the Divide gridsters, according to Jim Lawlis, coach of the McCaulley crew.

Boys have been working out for several days with Coach Lawlis, a newcomer to the McCaulley staff. The Eagles will put up a stiff game, although lots of kinks must be worked out of the crew before they are in top form, Lawlis says.

A good sized delegation of fans from the McCaulley community is expected to follow the Eagles to the Nolan County community for the fracas, it is announced.

Work "Break" Is Vital to Farmer Efficiency, Safety

A "break" in morning and afternoon work hours is as important to farmers as to city workers, according to the Texas Farm and Ranch Safety Council, Hamlin area farmers are reminded in a release to The Herald.

In fact, these "breaks" in work routine can prove especially important in this day of farm mechanization because they reduce the possibility of accidental deaths and injuries and improve work efficiency as well.

The farmer who just can't space the 10 or 15 minutes required to get off the tractor, walk around or maybe have a snack or something to drink in mid-morning or mid-afternoon, should be reminded that recent accident studies indicate that the highest percentage of farm accidents occur during the late morning and mid-afternoon hours.

Farm wives can help, too. They can serve as break reminders to their husbands by packing a mid-morning and mid-afternoon snack and taking it to the field.

There is another angle to the work break idea, too. This gives mothers an opportunity to take children to the field to watch their father operate the machines they find so fascinating. This is the

Bargain Combination Sub Rate Announced By Hamlin Herald

Fall bargain rates are being announced this week by The Herald and The Abilene Reporter-News on new and renewal subscriptions.

The Herald, in the face of increased costs of publication that have almost doubled during the past six or eight years, will continue to sell for \$2.50 per year in Jones and adjoining counties, and \$3 elsewhere.

In combination with The Abilene Reporter-News subscribers can save \$1 on the daily and Your Home Town Paper. Both papers will be sent by mail for \$14.45. The Reporter-News by itself is \$12.95 (\$11.95 without Sunday).

The Herald will be glad to handle all daily newspaper subscriptions in combination with The Herald at a decided saving.

Example is more forcible than precept. People look at me six days a week to see what I mean on the seventh.—Richard Cecil.

safe way of satisfying the children's curiosity and makes a much anticipated event in the daily life of the youngsters.

So, why not follow the advice of the Texas Farm and Ranch Safety Council and take time out for a mid-morning and mid-afternoon break? It can pay off in safety, pleasure and efficiency.

Douglas Kirk Says Acting Is Outlet For Rebel Instinct

Kirk Douglas has acting to thank for, among other things, keeping him out of jail.

This, coming from a man who has never been cited by the police for so much as driving through a red light, is interesting to say the least, if it does somewhat underestimate Kirk's personal ethics.

His theory is that his natural rebelliousness finds an outlet in the acting out of his aggressions in his screen roles, thus keeping him out of real life trouble.

If this is true, then Kirk's latest role—as a very violent and blood-thirsty Viking—should keep him out of trouble for a long time to come.

"The Vikings," filmed in technicolor and technirama, in which Kirk is starred with Tony Curtis, Ernest Borgnine and Janet Leigh, plays for a week's run at the Hamlin Drive-In Theater beginning today (Thursday).

It isn't Douglas' theory so much that he is a rebel as that all people are. That's why, he believes, gangster movies and books are so popular—"for all his lawlessness, the gangster is frequently sympathetically received by the audience because he represents for them a vicarious escape from the conventionality of their normal lives."

"The Vikings" was a particularly meaty outlet for his lurking aggressions, Kirk claims.

"As Einar, a very rough specimen of Norse warrior, I plunder, kill, snarl, fight and carry off various women—a great role for letting off steam. By the time we had finished shooting the picture I didn't have a single bad trait left in me!"

TWICE OVER.

Gabby Tourist—"Whose skull is that?"

Tired Museum Guide—"That is the skull of the Emperor Montezuma."

Gabby Tourist—"Then whose skull is that small one beside it?"

Tired Museum Guide—"That, madam, is the skull of Montezuma when he was a small boy."

LONGHORN CAVERN QUEEN Mary Ann Ward of Austin receives her crown from Texas State Parks Board Chairman Maurice Turner of Huntsville at the Queen's Throne in Texas Longhorn Cavern near Burnet. The crowning highlighted the silver anniversary celebration of the Longhorn Cavern State Park recently.

Hamlin Soldier Takes Part in Air Transport

Army Private First Class Elijah W. Austin, 19-year-old son of Mr. and Mrs. Elijah Austin of Route 2, Hamlin, recently participated in an air mobility exercise during which he was transported with members of the 101st Airborne Division's 327th Infantry from Fort Campbell, Kentucky, to Lowry Air Force Base, Colorado.

Austin is regularly stationed at Fort Campbell as an assistant machine gunner in Company E of the 327th. He entered the Army in December, 1935, and completed basic combat training at Fort Bliss.

In civilian life Austin attended DePriest High School and worked for the Austin Bridge Company in Dallas.

NOT GUILTY.

The officer stopped his car and shouted to a little boy playing in the field: "Sonny, did you see an airplane come down anywhere near here?"

Hiding his slingshot, the boy replied, "No, sir, I've only been shooting at that bottle on the fence."

Prewit Motors Is Named Dealer for Panhard Car Here

Prewit Motors, corner of South-east First Street and Avenue A, has been appointed Panhard car dealer for the Hamlin area by Lone Star Motor Import, Inc. of Houston, distributor for the French manufactured automobile.

"We are happy to offer the motoring public of this territory this world renowned automobile," said L. E. (Gene) Prewit of the motor company. "This fabulous automobile has won countless victories in its class in sports car races throughout the world. However, we are interested in the Panhard for its fine qualities as a family car."

Panhard has the distinction of being the oldest automobile manufacturer in the world. The Panhard incorporated the qualities of a sports car and the ideal family car plus the economy of 45 miles per gallon and top speed of 85 miles per hour. It has an air-cooled engine, front wheel drive with four forward speeds, seats five passengers comfortably with big car riding ease.

The Panhard line of French automobiles has created quite a stir since its introduction in this country a short time ago. Dealerships are being rapidly set up with complete parts and service facilities.

"Our sales personnel have been thoroughly schooled and our mechanics are factory trained in the service and maintenance of the Panhard," said Prewit. "Anyone who plans to purchase an automobile in the future should not sign an order blank before he drives the amazing Panhard."

The Herald has carbon paper.

THE HAMLIN HERALD

Telephone 241

PRINTING OF QUALITY

Herald Building

THE NEWLYWED husband who was learning more about his bride whom he married over at Anson, came home one evening to find his new bride studiously going through his accounts.

"Ezra," he complained, "this makes me wonder whether you married me for my money!" "Don't be silly," she retorted. "I worship the very ground you walk on—and any other property you may acquire in the meantime."

MOST OF US fail to realize most of our shortcomings and lack of knowledge. A scripture from the Good Book points out, "Lord, make me to know... how frail I am," taken from Psalm 39:4. A Persian proverb further declares:

He who knows not, and knows not that he knows not, is a fool. Shun him.

He who knows not, and knows that he knows not, is a child. Teach him.

He who knows, and knows not that he knows, is asleep. Wake him.

He who knows, and knows that he knows, is wise. Follow him.

A SMILE costs nothing, but gives much. It enriches those who receive without making poorer those who give it. It takes but a moment, but the memory of it sometimes lives forever. None is so rich or mighty that he can get along without it, and none is so poor but that he can be made rich by it.

A smile creates happiness in the home, fosters good will in business and is the countersign of friendship. It brings rest to the weary, cheer to the discouraged, sunshine to the sad and it is nature's best antidote for trouble.

It cannot be bought, begged, borrowed or stolen, for it is something that is of no value to anyone until it is given away. Some people are too tired to give a smile. Give them one of yours, as none needs a smile so much as he who has no more to give. Keep smiling!

BEING HAPPY is a healthy attitude for all of us. It makes us feel better, as well as the folks with whom we come in contact.

An unknown author has this to say about looking at the bright side of things:

Laugh a little now and then: It brightens life a lot; You can see the brighter side Just as well as not. Don't go mournfully around, Gloomy and forlorn; Try to make your fellow men Glad that you were born.

ANOTHER BATCH of modern day definitions that probably will never find their way into the dictionary might include:

Haicret: A load off your mind.
Miteracy: The only known defense against some of the stuff that's been printed these days.
Oneself: The easiest person to deceive.
Promoter: A man who will furnish the sea if you will furnish the ship.
Smugger: A fellow who doesn't respect the customs of the country.
Superstition: An imaginary truth completely surrounded by falsehoods.
Triumph: A word which should be accentuated on the first syllable.
Whisper: Something not aloud in polite society.
Wig: A false hood.
Word: The only thing you must keep after giving it to somebody.

ON HER FIRST DAY of school this week a little Hamlin girl warned her mother: "Remember, Mommy, you're going to have to find another playmate now that I'll be gone all day."

And that remark, although the mother was happy the youngster was on her way toward an education, brought a tear to mother's eye, we can imagine.

THERE'S no justice in the many ways a woman can be blamed, declares a sedate matron of our town, who avers: A woman driver is a person who drives the same way a man does—only she gets blamed for it.

PLANS AROUND-THE-WORLD FLIGHT—George Williams, who hopes to take off from New York on a flight around the world in his 3,800-pound Mooney Mark 20-A, stops in Dallas on a flight from Kerrville, where the plane was made. Young Williams, a former Navy pilot who now lives in Mexico City, expects to make the flight in eight days. A native of Chicago, he is the father of five children. The plane is the same one in which the late Bill Wyatt made an unsuccessful attempt to fly to Rome earlier this year.

Riding Club Plans Arena for Members

Hamlin will be taking on a rodeo air again within a few days with the start of erection of an arena in North Hamlin by the recently organized Hamlin Riding Club, according to Bill Adair, president of the club.

The club officials last week

signed a lease agreement with city officials for a four-block tract of land owned by the city north of the Katy Railway tracks. The property is being cleaned off in preparation of improvements by the riding club. A 120x300-foot arena will be erected on the plot to provide a working area for horses and riders, Adair said.

The club will stage cutting horse contests as well as other rodeo events and practices.

The arena is expected to be completed by October 15, Adair declares.

More than 70 members have been signed up for the riding club, according to Mrs. John D. Ferguson, secretary-treasurer. Other people of the community—men, women, boys and girls—are invited to become members. A membership fee of \$10 is being charged each person, a portion of the fee to be used for improving the arena and other facilities.

Pied Piper Gridders and Coaches Treated to Barbecue by Booster Club

About 100 were present at the annual barbecue for the Hamlin High School Pied Piper football squad, their coaches and members of the Pied Piper Booster Club together with some enthusiastic football fans, was enjoyed at the Pied Piper football field Friday night.

Those who failed to see the Pipers in action against the Asper-

mont squad missed a treat, declare officials of the booster club, which sponsored the get-together. "Even though it is a little early in the season to see just what kind of a squad we will have this year," said Booster Club President Wayne Stallcup, "one thing is for sure—the Pipers will have a scrapping team, and they have every prospect of a district championship."

"We, the officers of the Pied Piper Booster Club, urge all football fans in Hamlin and surrounding communities to get behind our fine coaching staff and boys and show them that we are with them until the end."

One way that fans of the area might show their appreciation for the efforts of the coaches and grid players, said Stallcup, is to join the Booster Club.

License tag cards for automobiles are on sale at the H. & M. Tire and Appliance, White Auto Store and Western Auto Store, it is announced. These tags are about nine inches long by four inches wide; have white background with green letters, "Hamlin Pied Piper." Money raised by the sale of these tags will be used to back the athletic teams of Hamlin Schools. If you have not purchased your tag, get yours at once.

PARKERS HAVE GUESTS.

Mr. and Mrs. John O. Moore and children of Oklahoma City and Dr. and Mrs. Tom West and children of Abilene visited Mr. and Mrs. J. I. Parker last week.

First Cotton Bale Set Afire While on Display on Street

About 10 hours after Hamlin community's first bale of 1958 cotton was placed on display last Thursday afternoon in front of the Farmers & Merchants National Bank, the bale was set afire by unknown parties. Discovered about 1:00 o'clock Friday morning by Nightwatchman Jack Pyron, the fire did an estimated \$50 damage to the cotton.

Believed to have been set by malicious prowlers, similar in pattern to more than 40 other fires reported in the last 90 days in the Hamlin area, the fire was smothered by members of the Hamlin Volunteer Fire Department after several hours of burning.

The bale, harvested by O. L. Cochran of the Dovie community, had been ginned the previous week by Farmers Cooperative Gin of Neinda. Manager G. W. Drum-

See COTTON FIRE—Page 3

Richard Jarrell of Amarillo Named Nazarene Pastor

New pastor of the Church of the Nazarene in Hamlin is Rev. Richard Jarrell of Amarillo, local church officials have announced. He succeeds Rev. Bill Hanna, who resigned several weeks ago to accept a pastorate in Fort Worth.

The Jarrells will arrive in Hamlin next week and will make their home in the church parsonage on Northwest Avenue D. Rev. Jarrell's first sermons to the church will be on September 14.

Rev. Jarrell was reared in Fort Worth. He attended Texas A. & M. College and Bethany Nazarene College. He has pastored churches in Cheyenne and Gary, Oklahoma, Camden, Arkansas, and Amarillo Grand Avenue Church.

Mrs. Jarrell is the former DeJung French. Her father is presently the district superintendent of the South Arkansas District of the Church of the Nazarene. She is also a graduate of Bethany Nazarene College. Both the Jarrells are talented musically.

The Jarrells have two children, Sharon, who is four; and Richard, who is two years of age.

McCaulley Schools Opened Monday With Pupil Gains

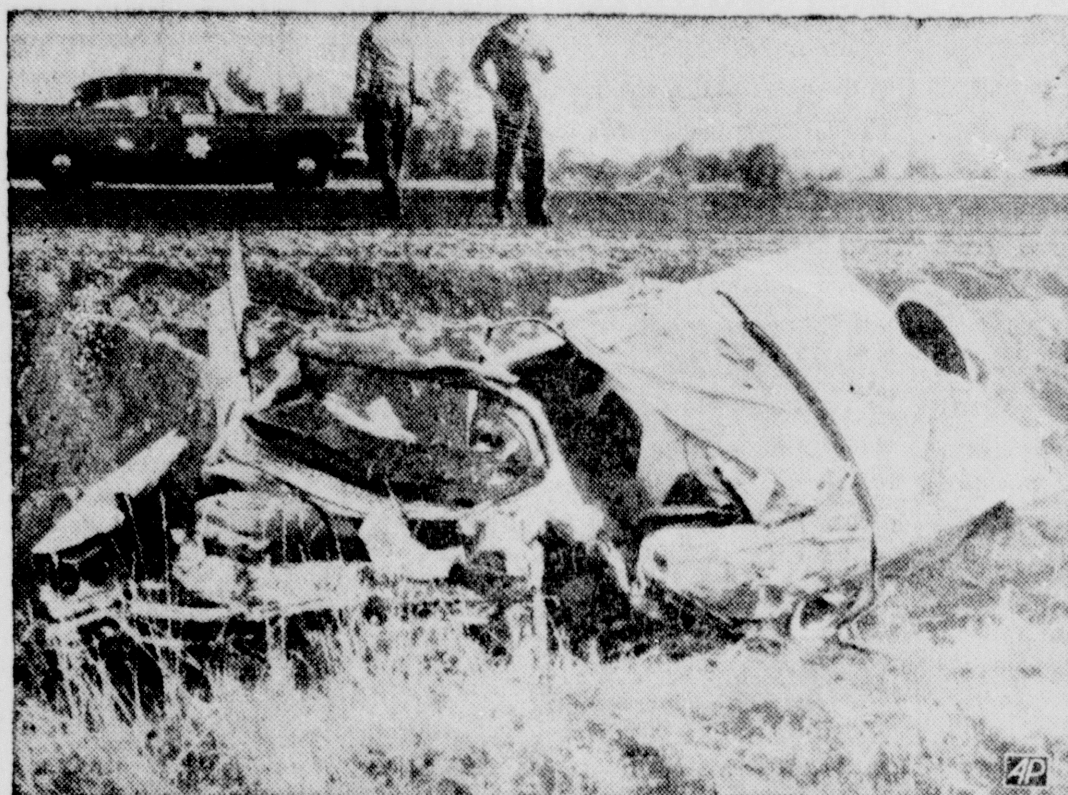

McCaulley Public Schools began the 1958-59 school year Monday with an enrollment of 154, which was a slight increase over the enrollment of last year, according to T. E. Green, superintendent. He said he expected further enrollment within the next several days that should bring the total to around 160.

The school, housed in a new \$35,000 sprawling one-story building erected last year, will have 12 teachers this year. A home-making teacher was expected to be hired this week, Green said. Chemistry is being added as a new subject this year.

Superintendent Green teaches geometry and driver education in the high school. O. F. Hill is high school principal and teaches math and science. Mrs. O. C. Freeman teaches English and science; Mrs. Beth Jones Hawkins is the commercial teacher; and B. M. Robinson is vocational agriculture instructor.

In the grade school Gene Brock is junior high school principal; Mrs. T. E. Green teaches in junior high; Jim Lawlis teaches social studies. Mrs. Treasure Reeder and Mrs. Rosa Lee Woods are primary teachers.

More Area Highway Jobs Set for Bids in Few Days

SIX PERSONS KILLED IN AUTO CRASH—A head-on crash of this auto on an express highway near Portland, Oregon, killed four Texans, a youth from Canada and another from Washington. Two persons were critically hurt. Howard D. Nelson, 51, and his daughter, Patricia, 22, of Dallas and Henry Browning, 73, and Della Browning, 71, of Keller were all killed in the auto shown.

Hamlin-Stamford Project Due for Bids This Month

Highway construction jobs continue to bob up in the Hamlin section to perpetuate a pattern set two years ago by the Texas Highway Commission—all of which is welcome contribution to the economy of the region and good news to folks living along the projected routes of the new highways.

This week the commission has issued call for bids on two projects that total 9.444 miles of farm-to-market roads, and a major construction project—relocating and widening of Highway 92 from Hamlin to Stamford—is scheduled for bids within a few days, according to Nelson Shave, resident Texas Highway Department engineer at Hamlin.

Bids called for this week are on a four-mile stretch of farm-to-market road from Hobbs, Fisher County, south from U. S. Highway 180 to Claytonville; and a stretch of nearly five miles north from Hamlin to the Jones-Stone wall county line.

The latter project is part of a 20-mile stretch from Hamlin to Old Glory, part of which has already been constructed on the north end. Yet to be contracted is a new bridge over the Double Mountain Fork of the Brazos River and some nine miles more of the road on FM Highway 2481.

Due for bids also in September is the \$600,000 relocating and widening project on Highway 92 from Hamlin to Stamford. All right-of-way has been secured on the route, and West Texas Utilities Company is relocating its power line in Hamlin this week in the east part of town. This job has been pending for nearly two years, for which money was appropriated two years ago.

Big Porcupine Killed Monday Near Hamlin

O. L. (Slats) Redus was displaying a big porcupine last Tuesday in Hamlin which he had killed on the Redus place west of Hamlin Monday night.

The porcupine, seldom seen in these parts, was despatched with a rifle after the Redus dog raised camp during the night about a disturbance about 50 yards from the house. The dog had treed the animal, and came away with a lot of quills in his nose and mouth after contacting the critter.

The porcupine weighed more than 14 pounds, Slats said.

FORT WORTH VISITORS.

Mr. and Mrs. C. N. Benham of Fort Worth have been visiting the Jess Youngs and Loy Frys on their vacation. They were on their way home from a vacation to Detroit, Michigan, and Rochester, New York.

Who's New This Week

Four new citizens have been recorded at the Hamlin Memorial Hospital since last week's report in The Herald. Three girls and one boy, they are:

A girl for Mr. and Mrs. Jimmy Kiker of Roby was born August 23. Weighing eight pounds three ounces, she will be known henceforth as Debra Elaine.

A girl for Mr. and Mrs. J. Q. Craft of Aspermont arrived August 26. After having her weight checked at a light five pounds four ounces, she accepted the monicker Sherry Ann.

A girl for Mr. and Mrs. Raymond Morales was born August 26. Eva weighed six pounds 14 ounces at birth.

A boy for Mr. and Mrs. Carol W. Wright discovered America on August 31. He balanced the scales at seven pounds 14 ounces, and was labeled Mark Allen.

Pied Pipers Go to Eastland Friday for Opening Grid Tilt

Most of Maize in Hamlin Section Already Moved

Probably 80 per cent of the maize crop in the Hamlin section has been harvested, grain buyers and others declared this week, as loads of the grain continued to dribble into buying stations.

Some late planted maize, he-gari and other head grain will continue to be harvested along for several weeks.

Quality of the maize crop has been fair, and yield has been below normal because of the lack of needed rains during the heading and developing period of the grain. Some rains 60 days ago would have doubled or tripled the yield, farmers believe, since prospects for a bumper crop early in the season were among the brightest in the history of the section. Rains early in the season had caused unusual early growth, but another siege of drought through a section about 15 miles wide and 40 miles long

NAMED PRESIDENT—Dr. Gordon R. Bennett, 58, has been named president of McMurry College in Abilene, succeeding the late Dr. Harold G. Cooke. Dr. Bennett, who had been acting president since the death of Dr. Cooke, is the first layman ever elected to the position. He is the sixth president in the 35-year history of the Methodist College. Bennett was superintendent of Hamlin Schools several years ago, later being in business here.

Maverick Crew To Present Tough Test for Locals

Hamlin High School's Pied Piper football crew got off to an early start of the grid season Friday night when the boys journey to Eastland for the first game.

This is the first game with the Eastland gridders in many years, the tilt replacing the game usually played against Post.

Coach D. C. Andrews says his boys will be in fair shape for the curtain raiser, which gets underway at 8:00 o'clock tomorrow night. He and Coaches Jimmy Vaughn and Neil Laminack have been putting the Pipers through strenuous work-out for 10 days, beginning with a week's football camp completed last week-end at the Pied Piper stadium.

John Richey, 135-pound half-back, who is a three-year letterman and plays defense as well as offense, is the only returning offensive back on the squad. Ken Prewitt, defensive starter last year, will play both fullback and line-backer. Returning lettermen are at every position in the line. Roy Williams, who moves well for his 200 pounds of avoidupols, is a stand-out on both offense and defense in the line.

The Eastland Mavericks, playing in District 7-AA, have a strong aggregation, as usual, although 11 key boys were lost through graduation last year. However, Coach Carol Shelton says he has a number of tough boys coming up from

See EASTLAND TILT—Page 3

Farm Bills Will Be Discussed at Neinda Gathering Monday

Farmers and their families of the Neinda and Hamlin sections of Jones County are invited to attend a conference on farm problems to be held Monday evening at 8:00 o'clock at the Neinda community center. The gathering is being sponsored by the Jones County Farm Bureau.

The conference, to be presided over by Charlie Gregory of Neinda, will discuss resolutions and new cotton bills proposed by the Farm Bureau.

The Neinda gathering is one of five community meetings being conducted in the county as a prelude to the county conference to be held Saturday, October 18, at Anson. Farm Bureau officials announce.

MISS TEXAS PICKS GOWN FOR CONTEST—Mary Nell Hendricks of Arlington, Miss Texas of 1958, is shown here selecting gowns which she will wear in the Miss America contest to be staged in September in Atlantic City, New Jersey. Miss Hendricks, a 22-year-old Arlington school teacher, was named Miss Texas in the contest held in Amarillo. She is shown shopping in Dallas.

NEW UNIFORMS DON'T MAKE ARRESTING EASIER

Being arrested for violation of traffic laws is just as unpleasant as it ever was, it is reported, but there is a new atmosphere about the highway patrolmen that is natty.

On July 1 of this year patrolmen in three divisions of the Texas Department of Public Safety appeared on our Texas highways in new uniforms.

Described as "Texas tan" in color, the new semi-western dress for state law enforcement officers is a slight departure from the metropolitan look of the old uniform. The new dacron-wool shirt and pants, plus jacket for winter use, are currently worn by patrolmen in the license and weight, driver license and motor vehicle inspection services of the Texas DPS. Texas highway patrolmen will have been completely re-uniformed soon.

For summer the lawmen wear light weight straw hats with a western crease, and during winter you will see them in a western creased felt hat. Gun belts and shoes are of black leather.

Up until the July 1 date, a variety of colors were noted in the uniforms of the various DPS officers. Highway patrolmen currently have their blue shirts, beige trousers and short

billied caps. License and weight patrolmen in their old uniforms wore western styled hats, light brown shirts and dark brown pants. Driver license patrolmen wore billed caps with dark brown shirts and beige slacks. Motor vehicle inspection did not have a uniform. Along with this variety, there was an assortment of accessory colors.

The new uniform not only adds the Texas flavor, but gives a uniformity to the dress of state law enforcement officers that can be easily recognized by the public. The service to which the patrolmen is attached is named on the shoulder patch.

Need for a common dress became apparent when the Texas DPS adopted a modernistic plan of organization September 1, 1957, and law enforcement functions were integrated under six regional commanders and a field operations office. With this change, more emphasis was placed on unification for both efficiency and ease of the public.

The new gear is proudly enhanced by an attractive badge that was placed into use by all DPS officers in July, 1957. The "Texas tan" uniform—a Texas product—adds a striking appearance for lawmen of the Lone Star State.

New Cars to Be No Cheaper

You will find the 1959 cars just as costly and full of chromium as this year's models. According to advance information, the new models will bulge wider and extend longer than the 1958s.

In the works are bigger windshields, more chrome and multi-colored anodized aluminum trim. Makes which now have tail fins will have wider and higher ones. There will even be ornaments on front fenders on some models.

Engines and basic mechanical design will reflect one encouraging development—a little less horsepower and more economy in some models.

When you hear complaints about the size of the 1959 cars, remember that almost two out of three car buyers choose the bigger and more expensive models over the small economy types.

Drugs Without Prescription

Advent of penicillin and other so-called wonder drugs has revolutionized modern medical practices. These new drugs—called "antibiotics"—have caught the public's fancy, and have given physicians powerful weapons in their conquest against disease.

But into this symphony of praise has crept a sour note. Cases of incorrect dosage and self-prescription are becoming common, raising the danger of serious reactions.

It is a waste of time to run for a shot of penicillin for an oncoming cold. The drug is ineffective against the viral diseases, including common colds, flu, measles and mumps. Taking penicillin in lozenges or other forms for scratchy throats, for upset stomachs or a variety of mild illnesses which would quickly run their course anyway is unwise unless prescribed by a physician.

A common pattern of self-prescription goes like this: The doctor prescribes an antibiotic for a sick patient. Some of the pills are left over after the patient gets well. Several weeks later, the patient again feels bad and on his own initiative takes the left-over pills.

There are many good reasons why drugs should not be taken without prescription.

Increasing use of wonder drugs have shown up their limitations. A most appropriate rule of thumb to follow in the use of any drug is never to take them without a physician's recommendation.

There are two kinds of women—those that men look up to and those they look down at.—Changing Times

With What We Have

Diogenes wanted only a lantern to help him in his search for an honest man. Many a high school boy thinks that he would be perfectly happy if he had a saxophone. To little boys a pair of roller skates represents happiness.

Mr. Smith, the banker, requires an expensive new car for his happiness. Mrs. Jones must have a new fur coat before she will be thoroughly happy.

A cynic wants a full share of the world's stupidity, for "only the stupid are happy," he thinks. Millions of men in America would be gloriously happy if they could go to work tomorrow morning. Thousands of ill and suffering men, women and children need health to make them happy.

What do you need for happiness? David Swing answers this question for you when he writes: "Let us learn to be content with what we have." Let us get rid of our false estimates and set up the higher ideals—a quiet home; vines of our own planting; a few books full of the inspiration of a genius; a few friends worthy of being loved, and able to love in return; a hundred innocent pleasures that bring no pain or remorse; a devotion to the right that will never swerve; a simple religion that is empty of all bigotry, full of trust and hope and love. And to such a philosophy the world will give up all the empty joy it has."

Editorial of the Week

LITTLE TO FEAR IN SPACE

Flying saucers are back as a hot topic with the statement of a world famed scientist, Dr. Carl G. Jung, that he "can only say for certain that the things (unidentified flying objects) are not a mere rumor." To which he adds:

"I have gathered a mass of observations of unidentified flying objects since 1944. The disks do not behave in accordance with the physical laws, but as though without weight. If the extra-terrestrial origin of this phenomena should be confirmed, this would prove the existence of an intelligent interplanetary relationship."

Still not convinced is the U. S. Air Force. It has stated that it uncovered no proof of the existence of UFOs in 5,700 investigations since 1948.

Yet one doesn't find it too hard to accept Dr. Jung's theory that in the vast universe are beings so far advanced that they have mastered the secrets of inter-planetary travel. So what! Surely these space trotters would be far too smart to bother with this much-troubled globe.—The Grit Magazine.

RECALLING Other Years

☆ Being news items taken from old files of Your Home - Town Newspaper, The Herald.

THIRTY YEARS AGO.

In scanning the files of Your Home Town Paper, we find the following news briefs, taken from the issue of The Hamlin Herald dated September 7, 1938:

A meeting of citizens promoting the Fort Worth-Roswell-Grand Canyon Highway Association was held Tuesday afternoon at Rotan. Tate May of Hamlin was elected treasurer of the unit.

Mrs. C. N. Dix and little son of Lompock, California, were guests last week of her parents, Mr. and Mrs. T. B. Cooper, 12 miles west of town.

Thousands of visitors are due to swarm in to town Friday for the oil and gas celebration at Hamlin. Arrangements have been made to serve free barbecue to the hundreds of guests expected for the occasion at noon.

Maude Prather of Edinburg and Cornette Hutchins of Plainview, were guests of Mr. and Mrs. D. D. Crow this week.

Letha Rowland returned Saturday from Alpine, where she has been doing advance study at Sul Ross State Teachers College. She will teach the coming year in New Mexico.

Mrs. A. G. Griffin is visiting her son at Westbrook for a month or more.

TWENTY YEARS AGO.

From the files of The Hamlin Herald dated September 2, 1938, the following news briefs of 20 years ago are reproduced:

Jones County voters turned out in good numbers last Saturday for the run-off primary. Total of 3,546 votes were cast in the election that saw the election of Coke R. Stevenson as lieutenant governor, Gerald Mann as attorney general, Jerry Sadler as railroad commissioner, Travis B. Dean as representative, Otis Miller as district judge and B. T. Beaver as county superintendent. Warren Nobles is at home for a vacation from Texas Tech.

Elizabeth Bowyer of Abilene was here Wednesday to visit her friends, Mary Boyd and Annie Louise Johnson. She formerly taught with them at Fort Stockton.

Dr. and Mrs. Carl Rister, who have been visiting her parents, Mr. and Mrs. M. P. May, and other relatives, returned to their home at Norman, Oklahoma, Thursday. They were accompanied by Mr. and Mrs. J. Frank Johnson, who will remain for a week's visit.

TEN YEARS AGO.

Events in the Hamlin community 10 years ago included the following, reprinted from the issue of The Hamlin Herald dated September 3, 1948:

Nine directors were named by a meeting of stockholders of the Hamlin Memorial Hospital held Thursday evening at the high school auditorium. Elected were C. P. Amerson, Fred H. Britton, Holly Toler, Willard Maberry, Clyde R. Angel, Tom Holman, J. B. Terrell Sr., J. S. Inzer and Fred B. Moore Sr.

The 1948 version of the Hamlin High School Pied Piper football team will be ready for the opening game of the season Friday night, when they meet the Stamford Bulldogs, according to Red Burditt and John Howell, grid coaches.

FIVE YEARS AGO.

Goings-on in the Hamlin community are reflected in the following news briefs, taken from issue of The Hamlin Herald dated September 4, 1953:

New generating station of the West Texas Utilities Company on the recently completed Paint Creek Lake, northeast of Stamford, is producing an additional 33,000 kilowatts of electric power for this area. Stamford and Hamlin are taking domestic water from the lake.

New minister of the Hamlin Church of Christ is E. M. Borden Jr., who comes next week from Earth. He succeeds Warder K. Novak, who resigned July 1 to go to Snyder.

A rousing welcome home was given Mickey K. Scott, Hamlin Marine, who recently was released from a Korean prison camp after an absence of nearly four years.

ONE YEAR AGO.

News bits from The Hamlin Herald dated September 5, 1957, include the following:

Considerable damage to cotton crops in the Hamlin area was done by hail that fell Tuesday night.

Third Hamlin High School ex-student homecoming has been set for Friday, October 18.

HHHS Pied Pipers will begin their 1957 football season Friday night when they meet the Roby Lions on the local grid.

Congressman Burlison Says Action on Farm Legislation Is Imperative Soon

Members of Congress from cotton producing areas agree on one thing—certainly there is a need for new legislation, declares Congressman Omar Burlison, in his weekly news release from Washington. His release continues:

The Senate has passed a bill which, in effect, permits two choices for farmers. One is to have increased acreage with lower price supports, and the other is to reduce acreage and maintain higher support prices. The Senate bill also junks the present concept of "parity" and substitutes a loan value based on the past three years.

At the present, the House committee on agriculture is not looking with favor upon the Senate bill and is attempting to produce one of its own. It is certainly hoped that some constructive measure can be produced before the Congress adjourns. It is the last chance for a farm bill in this session.

This past week the House of Representatives passed H. R. 10, known as the Jenkins-Keogh bill, providing that self employed people, such as those engaged in the professions, druggists, barbers and others, be allowed to have their own retirement fund. The bill provides that a self employed person may defer income taxes on 10 per cent of his income up to \$2,500 a year, but not more than \$50,000 in a lifetime, as a "set aside" for old age. This measure seems only fair to those people who are not eligible for social security under the present law.

On May 15 this column predicted that the administration would again ask Congress for authority to increase the government's permanent debt limit.

New Booklet on Vet Land Program Being Distributed in Texas

Several Hamlin area veterans have participated in the veterans' land program of the state of Texas already, and still others will secure land holdings under provisions of the act.

A new information booklet about the Texas veterans land program has been printed and is now being distributed, Land Commissioner Bill Allcorn says.

"Veterans, attorneys and others interested in the program will find the new booklet of especial interest and help," Allcorn believes.

The pamphlet was published to meet an increasing demand for information about the speeded-up veterans' land program, the land commissioner notes.

"In rewriting this material we have included changes in the program since the last booklet appeared in 1955. Our new pamphlet has been written so that it is easily read," Allcorn explains.

The booklet is divided into two parts. One outlines procedures and information, and the other is the veterans' land act.

The booklet may be obtained without cost by writing to Allcorn at the General Land Office, Austin 14, Texas.

GUESTS OF PATTERSONS.

Mr. and Mrs. LaFoy Patterson had as guests over the Labor Day week-end their daughter and family, Mr. and Mrs. Ray Davis and son, Raymond LaFoy, of Greenville.

WITT JEWELRY Co.
Next to White Auto

Lynn Cooper, 17, of Plainview is the new Miss Wheathearts of the nation. She was crowned at the annual contest held in Perryton and was selected over 17 other High Plains contestants.

VISITS AT HOUSTON.

Mrs. John R. Brown Sr. spent last week at Houston with her daughter and family, Mr. and Mrs. P. E. Hetzel and Taras.

Chiropractors of Area Will Attend Officer Gathering

Dr. William A. Pattillo of Hamlin will be among the more than 100 chiropractic leaders from all parts of the state who will gather in Austin Saturday, September 13, for the fourth annual district officers' conference of the Texas State Chiropractic Association.

Purpose of the conference is to orientate newly elected officers of the 12 association districts in Texas with the aims, objectives and accomplishments of the association and to promote a closer unity between individual practitioners and the state organization through district groups.

Lectures during the one-state session will be given by state officers and committee chairmen, who will explain the program and plans of the state organization.

Advertising, insurance and ethics will be emphasized during the discussions.

The following officers from West Texas are expected to attend: Dr. William A. Pattillo of Hamlin, president; Dr. Bettye J. Shipman of Sweetwater, vice president; Dr. L. C. Renken of Miles, secretary-treasurer; Dr. A. M. Fischer of Coleman, Dr. Jim Wolfe of Abilene and Dr. C. L. McInturf of Abilene, vice directors; and Dr. R. E. Capshaw of San Angelo, state directors.

VISIT AT WELLINGTON.

Mr. and Mrs. Delbert Smith visited with Mr. and Mrs. Wade Welch at Wellington for several days. They returned home Monday.

Cotton Looks Fine ... Let's Save It!

Here they come on the double quick . . . eyes front and directly on your cotton crop! Stop their feast before it starts . . . by spraying or dusing with insecticides that are quickly fatal to boll weevils, leaf worms, pink bollworms and other cotton pests. Do it now! Later may be too late!

Jones County Girl Named as District Queen at FB Meet

Jones County's representative at the District 7 Farm Bureau convention held Saturday at Coleman was named district Farm Bureau Queen before several hundred at the coronation Saturday night. B. J. Gist, Hamby farmer who is director of District 7, crowned the slender honey blond, Mary Ruth Thorn of Anson.

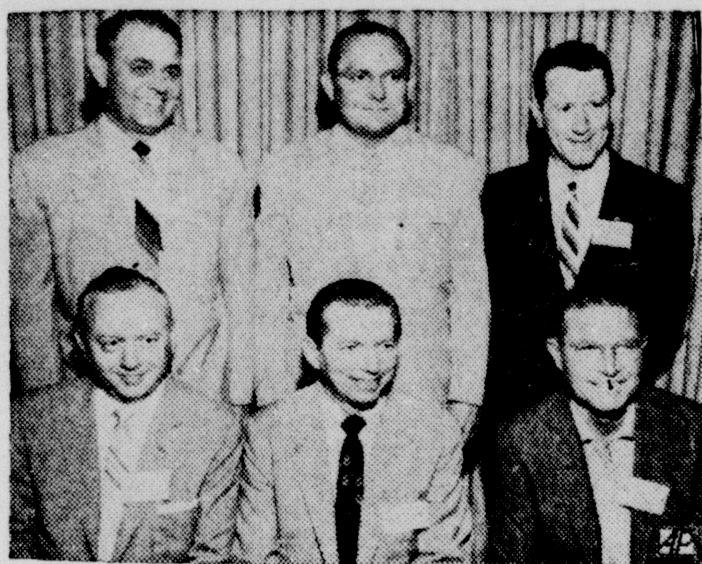

The district queen, a 1957 graduate of Anson High School, was named county Farm Bureau Queen three weeks ago. She won over 10 other contestants from Central West Texas counties.

The daughter of Mr. and Mrs. Clifford Thorn, an Anson farm family, Miss Thorn declared that she is "proud to be just a country girl." She attended Texas Technological College at Lubbock last year, and is employed by an optometry firm in Abilene.

Scores of Farm Bureau members and their families were present for the district meeting from the Jones County organization, of which C. E. Gregory of Neinda is president.

VISIT FROM TEXAS CITY.

Mr. and Mrs. Horace Ed Crow and Karen spent Labor Day weekend with their parents, Mr. and Mrs. Earl Crow. Horace Ed is a construction engineer for Monsanto Chemical Company at Texas City.

OFFICERS ELECTED—New officers of the Texas Poultry Improvement Association elected at the thirty-fifth annual convention held in Dallas are (left to right) seated: C. D. Calhoun of Tyler, first vice president; Jack W. Martin of Stephenville, president; W. B. Griffin of Santa Anna, second vice president; standing: W. J. Moore of Bryan, outgoing president and director of American Poultry and Hatchery Federation; L. M. Manford of Nixon, second vice president APHF; and Vern F. Steckley, president of APHF of Kendallville, Indiana.

Suggestions Made to Cotton Farmers On Defoliation Methods for Crops

Scores of Hamlin area cotton farmers will defoliate their cotton this year and use machines to harvest the crop that now looks like only an average to poor one.

A good cotton defoliation job will return dividends in terms of less trash and green stain and better grades if harvesting is done by machine, says Fred C. Elliott,

extension cotton specialist. This is especially true, adds Elliott, if the plants are tall, leafy and succulent.

The specialist points out that the best time for defoliation will vary with the weather, condition of the crop and the principal benefit expected. In general, however, application of the true defoliants should be delayed until 55 to 60 per cent of the bolls are open. Dew is necessary to activate dust defoliants, while those applied as sprays should be used in accordance with recommendations listed in L-145, "Guide for Use of Cotton Defoliants," which is available from the offices of local county agents or as recommended by the manufacturer of the material.

Elliott points out that a combination of one pound per acre of 90 per cent amino triazole with one-half the recommended spray defoliants usually gives good defoliation and adequate control of second growth. Except under favorable conditions, true defoliants do not always give acceptable results for mechanical stripping, says Elliott. Therefore, desiccants are recommended but they should not be used until the top bolls are mature and a full 60 per cent or more of the cotton is open. Desiccants are used to kill and dry out the plants if the cotton is to be stripped by machine before frost.

Elliott warns that good coverage of the cotton plant by the defoliant or desiccant is a must if the best possible defoliation is to be obtained. Spray applied in too little water per acre is listed by the specialist as the most common mistake made by both operators of ground sprayer rigs and planes.

Finally, the specialist advises producers to keep cotton dry, loose and clean for better ginning and quality.

God has two dwellings; one in heaven and the other in meek and thankful hearts.—Izaak Walton.

Criminal Activities of Under-Agers Increasing, Says State Crime Officers

City and county officers in this area have indicated that criminal activities of persons under 21 years of age, following the trend over the rest of the state, are increasing in a report released by the Texas Department of Public Safety to The Herald.

The DPS said its count of finger-print records of persons 20 years of age or younger for the year 1957 was 14 per cent greater than for 1956, while 4,493 persons of 17 years of age were finger-printed in investigations.

More than for 1956, a total of 18,146 finger-print cards of youthful criminals were received by the department in 1957, while 18,768 were received in 1956.

The greatest increase involved 17-year-olds, followed by the 18, 19 and 20-year-old groups. A considerable jump was noted in the number of finger-print cards received from the 16 and 17-year-old groups. A total of 1,083 cards

The DPS said the card count was not a conclusive means of totaling the number of criminals of these age groups since many minors are not finger-printed. However, a general increase in crimes for these age groups is reflected in the information.

General criminal offenses in Texas during 1957 for persons of all age groups occurred at the rate of 424 offenses per day, according to a department crime report recently submitted to the newly organized State Law Enforcement Study Commission. In that report Colonel Homer Garrison Jr., director of the Texas DPS, said major crime in Texas for 1957 was up 9.2 per cent over the year 1956.

Most of the increases, he said, came in urban areas, while rural areas experienced a decrease. Urban was up in all categories but one, while rural was down in all classifications but one.

Murder led all categories in the 1957 increase with a total of 1,084 such crimes—a 25.2 per cent increase over the previous year. Rape showed a 3.4 per cent decrease, robbery 6.3 per cent increase, aggravated assault 4.1 per cent decrease, theft 10.3 per cent increase and auto theft 17.4 per cent increase.

In comparing rural crimes with urban crimes, Garrison said murder was up in both instances—rural up 13.4 per cent and urban 35.4 per cent. Auto theft in urban areas was up 21.4 per cent, robbery up 15.9 per cent, theft up 13.6 per cent and burglary increased 10.3 per cent in urban areas.

Among the leading decreases in rural crime for the year 1957 came aggravated assault with 10.6 per cent. Next in line was a 7.8 per cent decrease in rural thefts.

CARLTON'S VISIT.

Mr. and Mrs. Buren Carlton visited for several days with Mr. and Mrs. Kenneth Barnett and family at Tucuman, New Mexico.

EASTLAND TILT

(concluded from page one)

The B team to bolster the squad, Halfback Larry Hollis, Quarterback Clint Humphrey and Guard Knobby Arthur are stalwarts of the Eastland Crew. Other standouts from last year's team are Bill Turner, Stanley Reed, Mike Manning, Phillip Lewis, Truman Lane, Marvin Agnew, Mike Lisenbee, Freddie Miller and Gary Lusk.

A big delegation of fans, headed by the Hamlin Pled Piper Booster Club, is expected to follow the team to Eastland Friday evening. Cars will meet in front of the high school building at 5:45 o'clock tomorrow afternoon, where they will be decorated in school colors, then the group will travel in a caravan to Eastland. Boosters are urged to remain with the caravan for a parade in downtown Eastland on arrival, according to Wayne Stallcup, Bosoter Club president.

The Herald has carbon paper.

North Central Baptist Church Revival Ends

Six additions to the church were among visible results of the 10-day revival meeting concluded recently at the North Central Avenue Baptist Church, according to Rev. Woodrow McHugh, pastor.

Evangelist for the series of services was Rev. Bill Carter of Hobbs, New Mexico, who is pastor of the Rock Chapel Baptist Church near Hobbs.

COTTON FIRE

(concluded from page one)

mond of the gin had brought the cotton to town for display at the request of officials of the Hamlin Board of Community Development as a courtesy.

Police Chief E. B. (Buddy) Watson declares that no arrests have been made in connection with the fire. However, his department has some leads in connection with the case, he says.

Hamlin People See Indian Exposition on Visit to Anadarko

Mr. and Mrs. Earl Crow and Mrs. Melvin Crow returned Friday from a trip to Kansas and Oklahoma. They visited their sister, Mrs. A. R. Prosser, and family at Wichita, Kansas. Mrs. Prosser is ill.

The Hamlin group attended the Indian Exposition at Anadarko, Oklahoma. They say the parade alone is well worth the trip to Anadarko. Indian tribes from "all over" take part in this fair. Tribes from as far away as the Aztecs of Mexico participate. Each tribe has customs peculiar to themselves. Indians in ancient war bonnets, paint, feathers brightly colored, bells, etc. take part. These war bonnets are handed down from generation to generation. Each tribe's princess led the group, followed by other members of their tribes in war paint, etc.

The princesses ride in cars decorated with various articles of their handiwork, the seat (or throne) covered with brightly colored blankets and shawls. Most of the girls wore white buckskin dresses, beads, etc. Watching the parade one forgets for the moment that many of the participants are college graduates.

The Crows' only regret was that they did not have a movie camera along. The parade lasted nearly two hours.

of Ruth Ann Phillips of Deming and Asa Goodgame of Hamlin. The pastor, Rev. Hollis Shook, officiated at the rituals.

The bride is the daughter of Mr. and Mrs. Shelby Phillips Jr. of Deming, and he is the son of Mrs. Opal Goodgame of Hamlin. Wayne Anderson of Fort Worth and Ann Bounds of Alpine were the couple's only attendants. Ushers were Ronald Paynter and Shelby Phillips III, brother of the bride.

A reception was held in the La-Fonda ballroom. Members of the house party were Diane Burt and Miss Bounds.

After a wedding trip to Cloudcroft, New Mexico, the couple will make their home at 3524 Kent Avenue in Fort Worth.

The bride is a graduate of Deming High School, Stephens College in Columbia, Missouri, and the Harris School of Nursing at Texas Christian University at Fort Worth.

Young Goodgame is a graduate of Hamlin High School and attended Texas A. & M. College. He is presently attending TCU.

VISIT IN NEW MEXICO.

Mr. and Mrs. Joe A. Simpson and daughter, Carol Joe, spent the Labor Day week-end at Las Cruces, New Mexico, with their other daughter, Faith, and her husband, Charles Absher, and their baby, Lisa Joe. The Abshers came from Fort Huachuca, Arizona, where Charles is stationed with the Army.

A man must be stupid who believes there is no truth but on his own side.—Joseph Addison.

"She'll answer your note, sir, as soon as she knows a little more about you, she says!"

Consumption of Milk in U. S. Averaged Some 695 Pounds Per Person in 1957

The average person in the United States in 1957 consumed milk and other dairy products which utilized 695 pounds of milk, according to A. M. Meekma, extension dairy husbandman.

The average consumer bought 142 quarts of fluid milk, which headed the list of individual purchases, says Meekma. Cream was second at 43 pints (milk equivalent) and butter was third with 8.4 pounds.

Per capita consumption of other dairy foods was 7.8 pounds of cheese; 15.1 pounds of evaporated and condensed milk; 5.7 pounds of non-fat dry milk; 19.8 quarts of ice cream and other frozen dairy products; 5.2 pounds of cottage cheese; 5.4 quarts of fluid non-fat milk; 16.4 quarts of buttermilk; and 4.1 quarts of chocolate milk.

Twenty cents out of each food dollar, or 20 per cent of the food budget, was spent for the above listed foods.

The money price of milk may be seemingly high, but the "real" price has shown a sharp decline,

points out the husbandman. For example, in 1890 milk retail at an average of seven cents per quart. Despite this low price, the factory employee had to work about 25 minutes to earn wages equal to the price of a quart of milk. By 1929 it took 15 minutes for the worker to earn a quart of milk. In 1947 it took 10 minutes, and in 1957 it required only seven minutes.

Dairy farmers produced 126,300,000,000 pounds of milk in 1957. This all-time record production 20,500,000 cows, a smaller herd than the United States has had at any time in the last 40 years. The increased total production was due to greater yield per cow—a three per cent increase over 1955 to an average 6,162 pounds per cow. Had the 1957 herd produced only at the 1925 rate, 50 per cent more cows would have been needed to meet the production record of 1957, says Meekma.

Net value of Texas' industrial production increased 930 per cent in the 14 years after 1939.

U. S. Senator Lyndon Johnson Points to Record of Action by Present Congress

The work of this session of Congress has resulted in a record of productivity that compares favorably with the record of any congressional session in our history, declares U. S. Senator Lyndon B. Johnson, in his weekly news release to The Herald. His release continues: As this is written there are still important measures to be enacted before adjournment. But the record already made is one that does credit to our representative form of government.

In the field of national security, as I pointed out in my news letter last week, Congress took definite steps to strengthen our defenses and to improve our position in the space age.

Also, we met the threat of economic recession with a series of legislative measures prudently designed to combat the slump in business and to provide jobs for people who need them.

Effects of much of the legislation enacted during the last seven months will be felt for years to come. Space does not permit the listing of all the important bills passed, or even of most of them. But among the outstanding ones are these:

Resolutions calling for speeding up of previously authorized military construction and public works projects.

A new highway bill setting up a program to bring better roads to all our people and provide many, many new jobs.

The biggest health research program in history.

Extension of unemployment compensation—a life-saver for people who had been laid off from their jobs.

A housing bill to stimulate home building. Its good economic effects already are being felt throughout the country.

We authorized construction of a long list of water control and conservation projects in Texas.

The Senate passed, and I hope the House of Representatives will approve, a farm bill of great importance to Texas cotton and rice producers, to wool producers and to other farmers.

A bill creating a permanent small business administration with

greater lending authority and lower interest rates.

A bill to save the country's railroads from bankruptcy.

When will Congress adjourn? Guesses are plentiful, but no one knows the exact date. There is still work to be done. Action remains to be completed on proposed legislation of importance.

These past seven months have been all business so far as Congress is concerned. The concluding days or weeks of the session may be expected to follow the pattern that has been set. That means we will be working right up to the hour of adjournment, on matters affecting the well-being of the American people.

That is precisely as it should be.

Methodist Women In Church Program

Members of the Bonnie McBride Circle of the Woman's Society of Christian Service of the First Methodist Church met at the church last Friday morning with the following present: Mmes. L. C. Bonds, James Ballard, J. E. Harrison, Parker Kelly, Richard Young, Stanley Burge, Edmund Robb, W. L. Hunter and Phil Smith.

Mrs. Phil Smith gave the program on the fifth assembly of the WSCS. Next meeting of the group will be in the home of Mrs. J. E. Harrison.

BALLEWS AT REUNION.

Mr. and Mrs. S. C. Ballew last week attended the Annual Ballew family reunion at Reager Springs. Mrs. J. R. Ballew, mother of the Hamlin man, was the oldest person present. Five generations were present. More than 100 relatives attended the get-together.

Every thought which genius and peity throw into the world alters the world. — Ralph Waldo Emerson.

PERT PLAID—Cheryl Ann Summers of East Point, Ga., 1958 Little Miss Cotton, knows her ABC's of fashion. Her dress by Tiny Town Togs is interpreted in Mission Valley plaid trimmed with white cotton lace.

Fiftieth Anniversary To Be Observed by Bowen Popes Sunday

Announcements are out that the daughters of Mr. and Mrs. Bowen Pope will sponsor an open house reception honoring their parents on Sunday, September 7, at the residence on Northwest Avenue B from 3:00 until 6:00 p. m. marking the fiftieth anniversary of their marriage.

Mr. and Mrs. Pope have resided in Hamlin since early in 1914, when he became owner and publisher of The Hamlin Herald. Both Mr. and Mrs. Pope were actively engaged in the newspaper work for nearly 32 years.

The pioneers have lived at the same place, corner of Northwest Avenue B and Second Street, about 41 years, and in Hamlin for more than 41 years.

RUSSELLS BACK HOME.

Mr. and Mrs. W. C. Russell returned home Sunday from Ruidoso, New Mexico. Mrs. Russell has spent the summer at the resort, and Ted has gone up several times to spend several days.

New FRIGIDAIRE

Refrigerator-Freezer

and
it
never
needs

DEFROSTING
it's Frost-Proof

Now—a freezer compartment that never needs defrosting. No more dripping, dirty frost water—no more spill or mop-up. No more frost-locked packages and trays—because there will never be any frost to defrost—in this patented Frigidaire Frost-Proof Refrigerator-Freezer.

How does Frigidaire do it? By an entirely new kind of cold that whisks away heat and moisture—out of the freezer forever—so frost can never form. Food flavors and vitamins are locked in by perpetual below-zero cold.

And up in the refrigerator compartment, all foods are super-chilled with Frigidaire "Flowing Cold"—yet, here too, there's never any frost to defrost.

In every detail, it's the world's finest food-keeper—from its new Sheer Look styling to its mammoth 133-pound freezer chest, with In-a-Door Ice-Ejector that serves you sparkling-dry ice cubes by the score. See Frost-Proof Freezing at your Frigidaire dealer's. So amazing you won't believe it until you see it.

Special prices on all Frigidaires during this month. You will want to see this Frigidaire Refrigerator-Freezer that never needs defrosting. Come in soon!

In ordinary freezers, food packages and ice trays are all too soon covered by frost and ice that hide labels—cause sticking.

In Frigidaire Frost-Proof Freezer, after months or even years, packages and trays stay clean and free of frost, are easily removed.

West Texas Utilities Company

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

Austin.—Labor Day week-end is, by custom, summer's last fling. For millions it's a chance for a little more swimming, fishing or boating before school starts.

But for safety officials, it's a headache. They spend the week-end picking up the pieces, totaling up the score of those for whom this "last fling" was really the last.

Department of Public Safety statisticians, who base their "guesses" on grim experience, predict 29 traffic deaths in Texas over the holiday week-end.

Out to beat the odds is a combination of public agencies and private organizations cooperating in a drive spearheaded by Governor Price Daniel.

Texas Traffic Safety Council, the Governor's Highway Safety Commission and DPS will be assisted by several state-wide civic organizations and trade associations in emphasizing the importance of careful driving.

DPS will have 700 patrolmen on duty with two radar speed units in each highway district.

Governor Daniel has proclaimed the Labor Day week-end as "Deathless Days in Texas" and the following week as "Back to School Highway Safety Week." Through school officials and assisting groups, safety tags and programs will be brought to millions of school children.

This sort of thing has been done before every year, but there is special emphasis and wider participation this year. Texas safety leaders are straining to set a record of 10 per cent fewer traffic deaths this year. Goal, set by the governor, is in sight. Thus far, 1958 fatalities are 14 per cent less than for the same period last year.

Ultimate success hinges on being able to "keep the lid on" through the holidays ahead. If it can be done, several hundred Texans, not expected to be, will be alive at the end of the year.

No Special Session.—Governor Daniel said he would not call a special session of the Legislature to extend unemployment payments to jobless Texans.

Attorney General Will Wilson recently ruled that Texas could not take advantage of a new federal plan to advance states money for 12 additional weeks of unemployment pay without a special law by the Legislature.

Governor Daniel pointed out that (1) the recession seemed to be easing; (2) the Legislature would be in regular session in less than five months; and (3) more than five months; and (3) more had used up all their unemployment benefits were housewives, students or others only temporarily in the labor market.

But State AFL-CIO President Jerry Holleman sharply criticized the governor's position. He declared the state's unemployed workers have already lost some \$8,500,000 by Texas' failure to act.

Said Holleman, "If the oil industry or the insurance industry or any other industry were losing that kind of money and the governor had the power to stop it, I believe he would act."

Daniel retorted that the additional federal benefits were offered as a loan, not a gift, and would have to be repaid by Texas taxpayers. "It is not a matter of picking up free money."

Bigger Oil Flow.—For the third straight month, Texas oil production will inch up. Railroad Commission set the September allowable at 3,173,736 barrels a day on a 12-day producing pattern.

This will be a 228,302 barrel-a-day increase from August.

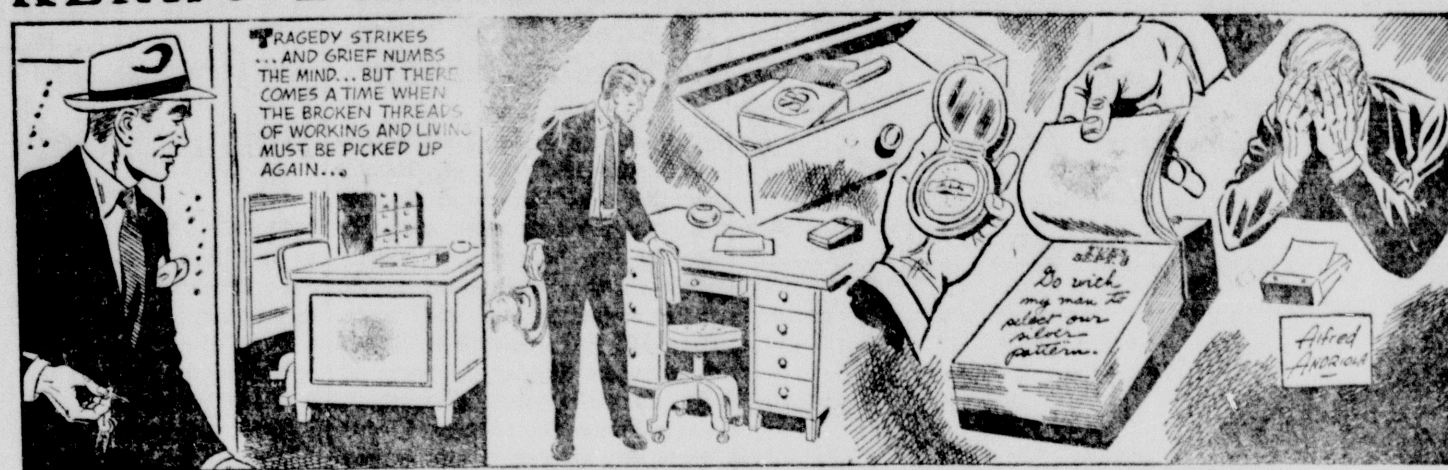

Oil production, cornerstone of the state's economy and prime source of tax revenue, was in a deep slump for more than a year. As demand dwindled and crude oil stocks piled up, the railroad commission was forced to make deeper and deeper cuts in permitted production. During April, May and June an all-time low of eight producing days was maintained.

Upturn began in July with nine days of production, continued in August with 11 days. At the hearing to set September production, one major buyer asked for 14 days, saying his company's crude stocks were at the lowest level in 19 years.

Slipped, But Not Hurt.—Despite a two per cent dip in Texas business activity, experts read Texas' economic signposts as generally favorable.

University of Texas Bureau of Business Research labeled the June decline as probably a "random variation."

KERRY DRAKE

"On the whole," observed BBR Staffer Francis B. May, "this recession has manifested itself in Texas primarily as an interruption of the upward progress of the economy, a leveling off, more than a decline." Diversification of the economy has helped, said May, with an improvement in agriculture helping to offset the decline in oil.

Looking ahead, May could see "nothing in the immediate future to augment the recession; consequently, recovery seems the most likely course of events."

BBR noted that Texas building is at a level approaching the

"boom" stage with permits for the first six months of the year two per cent above the previous January-June record.

Referees.—A credentials committee has been appointed to settle any hassles that may come up as to which delegates shall be seated at the September 9 Democratic convention in San Antonio.

Notice of contests (at least five are foreseen) must be submitted to the committee 10 days in advance of the convention. Hearings will be held the day before the convention.

Committee members, announced

by Executive Committee Chairman Jim Lindsey, are Judge Earl Sharp of Longview, chairman; James P. Bailey of Houston, Larry Blackmon of Mineral Wells, Mrs. Arthur Harris Sr. of Bay City and Mrs. Dorothy Gurley of Del Rio.

Short Shorts.—State Highway Commission tabulated \$24,259,167 in low bids on road construction projects. August lettings covered 584 miles of work... a fourth polo shot (or booster) may be considered desirable to give a high level of protection, especially in high incidence areas, says the State Health Department.

Freight Carloadings For Santa Fe Increase

Freight carloadings for the Santa Fe Railway System for the week ending August 23, 1958, were 23,542 compared with 22,478 for the same week a year ago, reflecting a decided gain. Cars received from connections totaled 11,039 compared with 12,163 for the same week in 1957.

Total cars moved were 34,581 compared with 34,641 for the same week a year ago. Santa Fe handled a total of 33,234 cars in the preceding week this year.

Booster Club Plans Caravan to Eastland

Hamlin Pied Piper Booster Club will sponsor an auto caravan of boosters to the opening football game of the season at Eastland Friday night, according to officials of the club.

Fans are urged to meet in front of Hamlin High School at 5:45 o'clock Friday afternoon to have their cars decorated for the caravan.

The caravan will move in a body at a safe speed and arrive at Eastland in plenty of time for the game, which will begin at 8:00 o'clock, it is announced.

Light Infestations Of Cotton Insects Continue in State

Continued light infestations of cotton insects have marked the cotton situation report issued by the Texas agricultural extension service in cooperation with the plant best control branch of the U. S. Department of Agriculture, in the weekly release to The Herald. Highlights from the state report, with a complete report on the Northwest Texas area of which the Hamlin section is a part, follow:

Cotton insect activity is very light throughout the state except in a few isolated areas. A heavy infestation of fleahoppers was reported from Briscoe County in the North Plains area and in Cottle County in the Northwest area. Bollworm infestations are generally light except for reports of heavy infestations in several counties in the South Plains area.

Boll weevils were reported heavy in isolated sections of the Central, Northeast and North Central areas. Cotton leafworms were reported light in the West Central and Northwest areas. Cabbage looper and aphid infestations have increased somewhat in the South Plains area.

Thrips infestations were reported very light in Hall and Motley Counties while Wheeler County reported medium infestations. Light infestations of fleahoppers were observed in Hall and Jones Counties, light to medium in Motley County, medium in Wheeler County and heavy in Cottle County. Bollworm populations were noted to be light in Wheeler and Jones Counties; heavy in Scurry, Motley and Cottle Counties. Light infestations of cotton leafworms were reported from Cottle County.

STUPID, THAT'S ALL

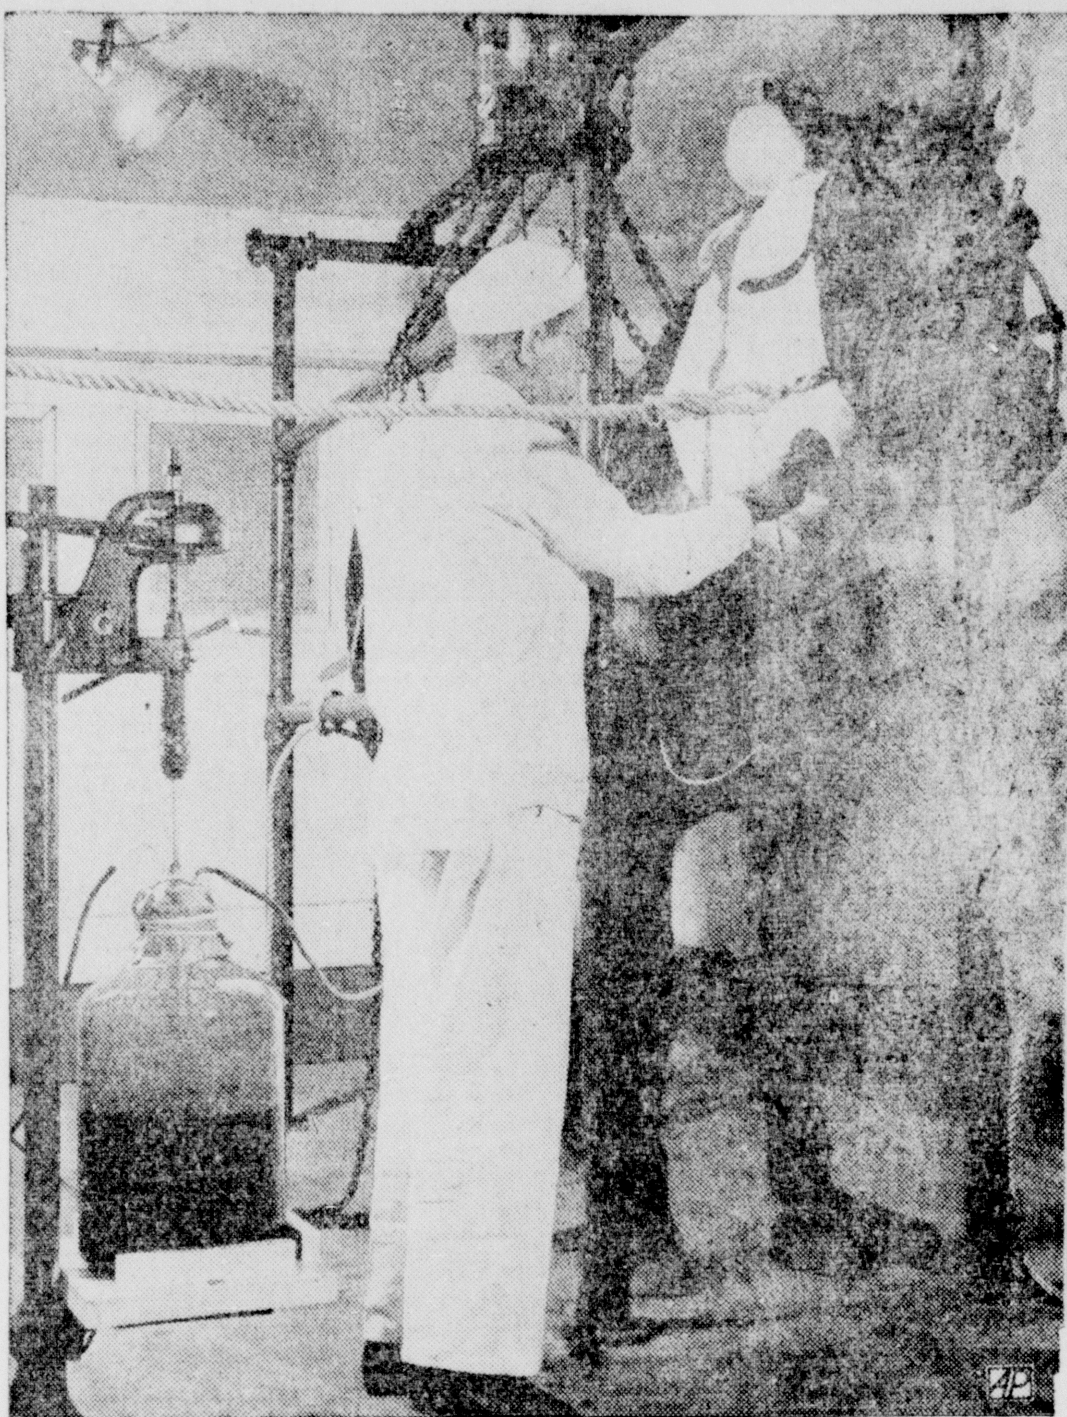

"Aren't you ashamed, making your wife support you by taking in washing?"

"Yes, but she's too dumb to do anything else."

HELPS MAKE SERUMS—Old Ned and 27 of his stable mates live a life devoted to science in the Globe Laboratories at Fort Worth. The horse is a living factory of anti-serums for hemorrhagic septicemia and erysipelas, cattle and swine diseases. Each horse gives blood every month for production of anti-serums as Old Ned is doing.

McHugh Conducts Revival at Lakeview

Rev. Woodrow McHugh, pastor of the North Central Avenue Baptist Church, returned Monday from Martin County, where he led in a week's revival at the Lakeview Baptist Church. Rev. Oddis Perry is pastor of the West Texas church.

McHugh reports that during the meeting there were nine additions to the church, seven by baptism and two by letter.

Speak when you're angry and you'll make the best speech you'll ever regret.

Two-County Singing Slated in City Sunday

Singers and song lovers of the area are advised that the Jones and Fisher County singing will be held the first Sunday in each month.

Singing will be Sunday, September 7, at the Hamlin Four-square Gospel Church, corner of Southwest First Street and Avenue D. Slated to begin at 2:00 o'clock, the public is invited to the songfest, declare leaders of the musicale.

When day is done you frequently find out not much else has.

Riding Club Group Rides in Roby Parade

Several members of the recently organized Hamlin Riding Club and their mounts participated last Thursday evening in the opening parade of the Fisher County Fair and Rodeo at Roby. The parade was a colorful, lively affair, witnessed by several thousand West Texans who were on hand for the thirteenth annual fair and rodeo, which continued for three days and nights.

The annual show, which was greatly expanded this year, provided exhibits and entertainment of high quality, say those who attended.

Real friends are those who, when you've made a fool of yourself, don't feel that you've done a permanent job.—Erwin T. Randall.

Slight Decline Made In Attendance Total At Sunday Schools

Slight drop in total attendance at Sunday Schools of Hamlin churches was registered Sunday from the previous week, probably due to the Labor Day holiday week-end that took many people on week-end outings and visits. The 1,242 total was 20 less than the previous Sunday, but was 47 more than the year ago total.

Attendance, by churches, for August 31, August 24 and a year ago follow:

Churches—	Aug. 31	Aug. 24	Year Ago
Ch. of Nazareth.....	96	97	97
Oak Gr. Col. Baptist.....	65	52	37

Roby Pastor Speaks To Methodist Men

Rev. James Kirby of Roby, who recently returned from Cambridge, England, where he did special work, was the speaker when the Methodist Men of the First Methodist Church met Tuesday evening in the monthly covered dish supper in the fellowship hall of the church.

More than a score of men of the church and invited guests were present for the get-together and program.

Special Rate Offered On Herald to Students

As in years past, The Herald this week is announcing its annual special bargain rate on subscriptions for Hamlin area students going away to college.

For only \$1.50 The Herald will be sent each week to any college student through the month of May, 1959. That's only about four cents per week—the price of a postage stamp on a letter, and Your Home Town Paper is like a letter from home, you know.

Come in or phone your subscription order to that college student today!

TV Stars to Appear At Prison Rodeos During October

There's always something new at the Texas Prison Rodeo, and out-of-this-world presentation for the twenty-seventh annual event will be the personal appearance of four of the nation's best known Western television stars.

H. H. Coffield of Rockdale, chairman of the Texas Board of Corrections, announces that Richard Boone, star of "Have Gun—Will Travel," Dale Robertson of "Tales of Wells Fargo," Ward Bond of "Wagon Train," and Robert Culp, star of "Trackdown," will make personal benefit appearances on successive Sundays in the prison's million dollar stadium in Huntsville. Scores of Hamlin area people attend the rodeo each year.

Primarily these TV personalities were engaged to boost ticket sales for this unusual entertainment feature, which in turn will swell the prisoners' welfare fund to aid 10,500 inmates of the Texas Department of Corrections.

"It is our opinion," declared Chairman Coffield, "that the addition of these top flight stars to the Prison Rodeo will serve a dual purpose."

"First of all, thousands of rodeo fans will be given an opportunity to meet these stars in person. Secondly, inmates attending the rodeo will get an added thrill of another entertainment facility, all of which amounts to the development of a well rounded prison rehabilitation program."

Need for additional welfare funds was pointed out by Coffield which he said was due to the unusual growth of the Texas penal system.

Coffield also remind citizens of Texas that, since the Legislature does not appropriate funds for inmate welfare work, net proceeds from the annual Prison Rodeo is the only way inmates can receive a host of services not provided by the state.

TRUE HAPPINESS.

"Congratulations, old man. I'm sure you'll remember this day as the happiest day of your life."

"But it's tomorrow I'm being married," said the prospective bridegroom.

"Yes, I know that," answered the friend gently.

Most of City Firms Closed for Labor Day

Monday was a quiet day in the old home town. Practically all business houses were closed in observance of Labor Day as a holiday, and much of the business section was pretty well deserted for the most part.

Many people of the community had taken advantage of the Labor Day week-end to have their last flings at vacationing, outings and visits. Start of school was delayed one day on account of the holiday, one of six during the year approved by a vote of merchants at the first of the year.

BCD Secretary Goes To Clinic at Abilene

Mrs. Ned Moore, secretary of the Hamlin Board of Community Development, Saturday attended sessions of the seventh annual short course for Chamber of Commerce managers, staff, office secretaries and presidents sponsored by the community services department of the West Texas Chamber of Commerce, held at the Wooten Hotel in Abilene.

Also attending the sessions with Mrs. Moore was her daughter, Mrs. Joe Don Hymer of Austin, who has been a guest in the Moore home for several days.

Stricter Laws for Drinking Drivers Urged by Speaker

Need for revisions and additions to the state laws governing automobile drivers was stressed when Ben Walker, district highway patrolman of the Abilene office of the Texas Department of Public Safety, spoke at the Tuesday noon luncheon of the Hamlin Lions Club at the oil mill guest house.

Walker, who has been a state highway patrolman for several years, especially stressed the need of laws to make the conviction of drinking drivers more effective. "With a shrewd lawyer and technical maneuvers, a drinking driver is difficult to convict under present statutes," Walker explained. A driver cannot be forced to submit to a blood test for alcoholic content, and evidence of alcohol in the blood, even if a motorist gives blood for the test, will not be accepted by juries except in cases of manslaughter or homicide charges.

Walker urged hearers to write their legislators urging passage of bills due to be presented to the next Legislature setting up strict chemical tests to determine drinking drivers. He also urged adoption of stricter drivers' license laws in handling of license revoking for drinking drivers.

The highway patrolman pointed out that 52 per cent of all rural accidents involve drinking drivers; 34 per cent of all fatal accidents involve drinking drivers; and 38 per cent of all fatal pedestrian accidents involving drinking drivers.

B. V. Newberry, recently named acting Lions Club president, was in the chair. Two elected presidents have resigned since election of officers. Newberry succeeds Stan Sheppard, who moved last week-end to Bay City.

LOVELLS HAVE GUESTS.

Mr. and Mrs. Carl Mounce and sons, John and Gaston, and Mr. and Mrs. Harvey Trussell and children, Opal and Wesley, of Fort Worth were guests of the Charles Lovell family over the week-end. Mrs. Mounce and Mrs. Trussell are sisters of Mrs. Lovell.

STUCK—Stanley Byrd, nine, of Fort Worth tugs in vain to get his horse, Black Jack, from between two trees where the animal was wedged when it tried to get into another pasture. Finally a wrecker operator looped a cable around one of the trees and enlarged the opening. He wouldn't charge for the job. He said it was unique in his experience.

Water Development in Texas Is Vital To Future of State, Declares Senator

Water development and potentialities of the state of Texas are the subject of a report prepared at my request by the Corps of Engineers, the Bureau of Reclamation and the Soil Conservation Service, in collaboration with the Texas Board of Water Engineers, points out United States Senator Lyndon B. Johnson in his weekly news release to The Herald. His release continues: The report, released this week, represents a long step toward meeting the No. 1 problem of Texas.

That problem is the conservation, control and development of our water resources. It is a problem that becomes more serious each year as a result of our state's great growth in population, industry and agriculture.

The future growth and progress of Texas will be limited only by its available supplies of water. Growth is already being limited to some extent, and the limitation will continue and become intensified unless and until an adequate state-wide program for control and use of the state's water resources is developed.

An important beginning has now been made toward development of such a program. This new water report was not designed to put forward an overall state-wide water development plan. But it does show how we can reach the objective of bringing such a plan into existence.

The report points the way toward preparation of a state program to control floods in Texas and to meet the water supply needs of the future.

It establishes a pattern for determining what the controlling elements of a long range Texas water program should be.

It sets out a plan of action for reaching a realistic and effective solution of the Texas water problem.

It presents a comprehensive inventory of the water resources of Texas.

It gives full recognition to the sovereignty of the state over its water resources and establishes that the federal agencies can make major contributions to the evolution of a plan to control fully—and to develop fully—these resources.

The goal is to make adequate supplies of water accessible when and where required. That goal can be reached only by state-wide planning. Basic responsibility for planning leadership rests with and must be exercised by the state. For the state owns the waters.

CONTRACTORS' NOTICE OF TEXAS HIGHWAY CONSTRUCTION

Sealed proposals for constructing 9.444 miles of grading, structures, base and surfacing from U. S. 180 to 47 miles south, and from Stonewall County line to Hamlin on Highway FM 611 and FM 2481, covered by R 983-2-4 and R 1747-3-1 in Fisher and Jones Counties, will be received at the Highway Department, Austin, until 9:00 a. m., September 16, 1958, and then publicly opened and read.

This is a "Public Works" project, as defined in House Bill No. 54 of the 43rd Legislature of the act, as defined in House Bill No. 115 of the 44th Legislature of the State of Texas, and as such is subject to the provisions of said House bills. No provisions herein are intended to be in conflict with the provisions of said acts.

In accordance with the provisions of said House bills, the State Highway Commission has ascertained and set forth in the proposal the wage rates for each craft or type of workman or mechanic needed to execute the work on above named project, now prevailing in the locality in which the work is to be performed, and the contractor shall pay not less than these wage rates as shown in the proposal for each craft or type of laborer, workman or mechanic employed on this project.

Legal holiday work shall be paid for at regular governing rates. Plans and specifications available at the office of Nelson Shave, Resident Engineer, Hamlin, Texas, and Texas Highway Department, Austin. Usual rights reserved.

Horace A. Payne with Naval Mine Depot

Horace A. Payne, chief engineer in the U. S. Navy, son of Mr. and Mrs. B. C. Payne of 813 Southeast Avenue A, Hamlin, and husband of the former Alida F. Richter of Follansbee, West Virginia, is serving with Guided Missile Unit 51 at the Naval Mine Depot at Yorktown, Virginia.

The unit, a shore based detachment of Submarine Squadron Six, prepares the Navy's Regulus I missile for delivery to missile launching submarines.

determines the use to which they will be put.

The great accomplishments of this comprehensive report is that it creates an avenue for the establishment of a state-wide water plan. In doing so, it gives us a vision of a time when the recurrent cycle of flood and drought in Texas will not be the unmitigated disaster it has so often been in the past.

That is the vision we must work to realize.

HAMLIN MEMORIAL HOSPITAL

Patients admitted to the Hamlin Memorial Hospital since last week's report in The Herald have included: Guy Teffeller of Roby, medical, August 24; Mrs. Wilson Brannon, medical, August 24; Mrs. Raymond Morales, ob., August 25; Mrs. J. Q. Craft of Aspermont, ob., August 26; Mrs. T. C. Gregory, medical, August 26; Mrs. Ed Croan, medical, August 26; R. R. Christian, medical, August 26; Joe Kraft, medical, August 27; C. F. Brown, August 28; Stephen Willingham, August 29; J. W. Harless, August 29; Mrs. R. L. McClung, August 30; Buddy McClung, August 30.

Schools Get Off to Busy Start Tuesday

There was hustle and bustle at the four Hamlin Schools and downtown Tuesday morning as hundreds of students of the community began work of the new 1958-59 school term.

Enrollments went off smoothly at Hamlin High School, Junior High School, Elementary School and Primary School, declare principals of the divisions. Slight increases in enrollment over last year were reported at all schools.

Since Monday was a holiday for most business firms, there was a rush by many students early Tuesday morning downtown to get last minute school supplies.

Nothing can cook your goose quicker than a hot temper.

McCaulley to Play Divide Crew Friday

McCaulley High School's six-man football team will get off to an early start of play tomorrow (Friday) night with a game at Divide with the Divide gridsters, according to Jim Lawlis, coach of the McCaulley crew.

Boys have been working out for several days with Coach Lawlis, a newcomer to the McCaulley staff. The Eagles will put up a stiff game, although lots of kinks must be worked out of the crew before they are in top form, Lawlis says.

A good sized delegation of fans from the McCaulley community is expected to follow the Eagles to the Nolan County community for the fracas, it is announced.

Work "Break" Is Vital to Farmer Efficiency, Safety

A "break" in morning and afternoon work hours is as important to farmers as to city workers, according to the Texas Farm and Ranch Safety Council, Hamlin area farmers are reminded in a release to The Herald.

In fact, these "breaks" in work routine can prove especially important in this day of farm mechanization because they reduce the possibility of accidental deaths and injuries and improve work efficiency as well.

The farmer who just can't space the 10 or 15 minutes required to get off the tractor, walk around or maybe have a snack or something to drink in mid-morning or mid-afternoon, should be reminded that recent accident studies indicate that the highest percentage of farm accidents occur during the late morning and mid-afternoon hours.

Farm wives can help, too. They can serve as break reminders to their husbands by packing a mid-morning and mid-afternoon snack and taking it to the field.

There is another angle to the work break idea, too. This gives mothers an opportunity to take children to the field to watch their father operate the machines they find so fascinating. This is the

Bargain Combination Sub Rate Announced By Hamlin Herald

Fall bargain rates are being announced this week by The Herald and The Abilene Reporter-News on new and renewal subscriptions.

The Herald, in the face of increased costs of publication that have almost doubled during the past six or eight years, will continue to sell for \$2.50 per year in Jones and adjoining counties, and \$3 elsewhere.

In combination with The Abilene Reporter-News subscribers can save \$1 on the daily and Your Home Town Paper. Both papers will be sent by mail for \$14.45. The Reporter-News by itself is \$12.95 (\$11.95 without Sunday).

The Herald will be glad to handle all daily newspaper subscriptions in combination with The Herald at a decided saving.

Example is more forcible than precept. People look at me six days a week to see what I mean on the seventh.—Richard Cecil.

safe way of satisfying the children's curiosity and makes a much anticipated event in the daily life of the youngsters.

So, why not follow the advice of the Texas Farm and Ranch Safety Council and take time out for a mid-morning and mid-afternoon break? It can pay off in safety, pleasure and efficiency.

Douglas Kirk Says Acting Is Outlet For Rebel Instinct

Kirk Douglas has acting to thank for, among other things, keeping him out of jail.

This, coming from a man who has never been cited by the police for so much as driving through a red light, is interesting to say the least, if it does somewhat underestimate Kirk's personal ethics.

His theory is that his natural rebelliousness finds an outlet in the acting out of his aggressions in his screen roles, thus keeping him out of real life trouble.

If this is true, then Kirk's latest role—as a very violent and blood-thirsty Viking—should keep him out of trouble for a long time to come.

"The Vikings," filmed in technicolor and technirama, in which Kirk is starred with Tony Curtis, Ernest Borgnine and Janet Leigh, plays for a week's run at the Hamlin Drive-In Theater beginning today (Thursday).

It isn't Douglas' theory so much that he is a rebel as that all people are. That's why, he believes, gangster movies and books are so popular—"for all his lawlessness, the gangster is frequently sympathetically received by the audience because he represents for them a vicarious escape from the conventionality of their normal lives."

"The Vikings" was a particularly meaty outlet for his lurking aggressions, Kirk claims.

"As Einar, a very rough specimen of Norse warrior, I plunder, kill, snarl, fight and carry off various women—a great role for letting off steam. By the time we had finished shooting the picture I didn't have a single bad trait left in me!"

TWICE OVER.

Gabby Tourist—"Whose skull is that?"

Tired Museum Guide—"That is the skull of the Emperor Montezuma."

Gabby Tourist—"Then whose skull is that small one beside it?"

Tired Museum Guide—"That, madam, is the skull of Montezuma when he was a small boy."

LONGHORN CAVERN QUEEN Mary Ann Ward of Austin receives her crown from Texas State Parks Board Chairman Maurice Turner of Huntsville at the Queen's Throne in Texas Longhorn Cavern near Burnet. The crowning highlighted the silver anniversary celebration of the Longhorn Cavern State Park recently.

Hamlin Soldier Takes Part in Air Transport

Army Private First Class Elijah W. Austin, 19-year-old son of Mr. and Mrs. Elijah Austin of Route 2, Hamlin, recently participated in an air mobility exercise during which he was transported with members of the 101st Airborne Division's 327th Infantry from Fort Campbell, Kentucky, to Lowry Air Force Base, Colorado. Austin is regularly stationed at Fort Campbell as an assistant machine gunner in Company E of the 327th. He entered the Army in December, 1956, and completed basic combat training at Fort Bliss.

In civilian life Austin attended DePriest High School and worked for the Austin Bridge Company in Dallas.

NOT GUILTY.

The officer stopped his car and shouted to a little boy playing in the field: "Sonny, did you see an airplane come down anywhere near here?"

Hiding his slingshot, the boy replied, "No, sir, I've only been shooting at that bottle on the fence."

Prewit Motors Is Named Dealer for Panhard Car Here

Prewit Motors, corner of South-east First Street and Avenue A, has been appointed Panhard car dealer for the Hamlin area by Lone Star Motor Import, Inc. of Houston, distributor for the French manufactured automobile.

"We are happy to offer the motoring public of this territory this world renowned automobile," said L. E. (Gene) Prewit of the motor company. "This fabulous automobile has won countless victories in its class in sports car races throughout the world. However, we are interested in the Panhard for its fine qualities as a family car."

Panhard has the distinction of being the oldest automobile manufacturer in the world. The Panhard incorporated the qualities of a sports car and the ideal family car plus the economy of 45 miles per gallon and top speed of 85 miles per hour. It has an air-cooled engine, front wheel drive with four forward speeds, seats five passengers comfortably with big car riding ease.

The Panhard line of French automobiles has created quite a stir since its introduction in this country a short time ago. Dealerships are being rapidly set up with complete parts and service facilities.

"Our sales personnel have been thoroughly schooled and our mechanics are factory trained in the service and maintenance of the Panhard," said Prewit. "Anyone who plans to purchase an automobile in the future should not sign an order blank before he drives the amazing Panhard."

The Herald has carbon paper.
